

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**

Washington, D.C. 20549

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2012

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____.

Commission File Number: 0-19582

OLD DOMINION FREIGHT LINE, INC.

(Exact name of registrant as specified in its charter)

HELPING THE WORLD
KEEP PROMISES.

VIRGINIA

(State or other jurisdiction of
incorporation or organization)

56-0751714

(I.R.S. Employer
Identification No.)

500 Old Dominion Way

Thomasville, NC 27360

(Address of principal executive offices)
(Zip Code)

(336) 889-5000

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class
Common Stock (\$0.10 par value)

Name of each exchange on which registered
**The NASDAQ Stock Market LLC
(NASDAQ Global Select Market)**

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of voting stock held by non-affiliates of the registrant as of June 29, 2012 was \$1,819,732,509, based on the closing sales price as reported on the NASDAQ Global Select Market.

As of February 27, 2013, the registrant had 86,164,917 outstanding shares of Common Stock (\$0.10 par value).

DOCUMENTS INCORPORATED BY REFERENCE

Certain portions of the Company's Proxy Statement for the 2013 Annual Meeting of Shareholders are incorporated by reference into Part III of this report.

FORWARD-LOOKING INFORMATION

Forward-looking statements appear in this Annual Report, including but not limited to Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” and in other written and oral statements made by or on behalf of us. These forward-looking statements include, but are not limited to, statements relating to our goals, strategies, expectations, competitive environment, regulation, availability of resources, future events and future financial performance. Such forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements typically can be identified by such words as “anticipate,” “estimate,” “forecast,” “project,” “intend,” “expect,” “believe,” “should,” “could,” “may,” or other similar words or expressions. We caution readers that such forward-looking statements involve risks and uncertainties that could cause actual events or results to differ materially from those expressed or implied herein, including, but not limited to, the risk factors detailed in this Annual Report.

Our forward-looking statements are based on our beliefs and assumptions using information available at the time the statements are made. We caution the reader not to place undue reliance on our forward-looking statements as (i) these statements are neither a prediction nor a guarantee of future events or circumstances and (ii) the assumptions, beliefs, expectations and projections about future events may differ materially from actual results. We undertake no obligation to publicly update any forward-looking statement to reflect developments occurring after the statement is made.

PART I

ITEM 1. BUSINESS

Unless the context requires otherwise, references in this report to “Old Dominion,” the “Company,” “we,” “us” and “our” refer to Old Dominion Freight Line, Inc.

Overview

We are a leading, less-than-truckload (“LTL”), union-free motor carrier providing regional, inter-regional and national LTL service and other value-added services from a single integrated organization. We are the sixth largest LTL motor carrier in the United States, as measured by 2011 revenue, according to *Transport Topics*. In addition to our core LTL services, we offer our customers a broad range of value-added services including ground and air expedited transportation, container delivery, truckload brokerage, supply chain consulting, warehousing and consumer household pickup and delivery services. We also offer worldwide freight forwarding services. Our services are complemented by our technological capabilities, which we believe provide the tools to improve the efficiency of our operations while empowering our customers to manage their shipping needs. More than 90% of our revenue is derived from transporting LTL shipments for our customers, whose demand for our services is generally tied to industrial production and the overall health of the U.S. domestic economy.

We have increased our revenue and customer base through both organic growth and strategic acquisitions and provide our domestic LTL services throughout the entire continental United States. Our infrastructure allows us to provide next-day and second-day service within each of our six regions, as well as inter-regional and national service between these regions. To support our ongoing expansion, we added 26 new service centers in the past five years for a total of 218 at December 31, 2012.

We believe our growth can be attributed to our focus on meeting our customers’ complete supply chain needs from a single point of contact while providing a high level of customer service at a fair and equitable price. Our service is supported by ongoing investment in our employees, service center network and technology. Our integrated structure allows us to offer our customers consistent high-quality service from origin to destination, and we believe our operating structure and proprietary information systems also enable us to efficiently manage our operating costs.

We were founded in 1934 and incorporated in Virginia in 1950. Our principal executive offices are located at 500 Old Dominion Way, Thomasville, North Carolina 27360. Please refer to the Balance Sheets and Statements of Operations included in Item 8, “Financial Statements and Supplementary Data” of this report for information regarding our total assets, revenue from operations and net income.

Our Industry

Trucking companies provide transportation services to virtually every industry operating in the United States and generally offer higher levels of reliability and faster transit times than other surface transportation options. The trucking industry is comprised principally of two types of motor carriers: LTL and truckload. LTL carriers typically pick up multiple shipments from multiple customers on a single truck and then route that freight for delivery through service centers where the freight may be transferred to other trucks with similar destinations. In contrast, truckload carriers generally dedicate an entire trailer to one customer from origin to destination.

According to the American Trucking Associations, total U.S. freight transportation revenue in 2011 was \$746.2 billion, of which the trucking industry accounted for 80.9%. The LTL sector had revenue in 2011 of \$46.9 billion, which represented 6.3% of total U.S. freight transportation revenue. In contrast to truckload carriers, LTL motor carriers require expansive networks of local pickup and delivery (“P&D”) service centers, as well as larger breakbulk, or hub, facilities. Significant capital is required to create and maintain a network of service centers and a fleet of tractors and trailers. The high fixed costs and capital spending requirements for LTL motor carriers makes it difficult for new start-up or small operators to effectively compete with established companies. In addition, successful LTL motor carriers generally employ, and regularly update, a high level of technology-based systems and processes that provide information to customers and reduce operating costs.

The LTL industry is highly competitive on the basis of service and price and has consolidated significantly since the industry was deregulated in 1980. Based on 2011 revenue as reported in *Transport Topics*, the top 25 LTL motor carriers accounted for approximately 64% of the total LTL market. We believe consolidation in our industry will continue due to customer demand for single transportation providers offering both national and regional LTL service and complex supply chain services. Smaller regional carriers with lesser financial resources are generally unable to meet this demand.

Competition

We compete with regional, inter-regional and national LTL carriers and, to a lesser extent, with truckload carriers, small package carriers, airfreight carriers and railroads. We also compete with, and provide transportation services to, third-party logistics providers that determine both the mode of transportation and the carrier. Competition is based primarily on service, price and business relationships. We believe we are able to compete effectively in our markets by providing high-quality and timely service at fair and equitable prices.

At all levels of our organization, we seek to continuously improve customer service by maximizing on-time performance while reducing transit times and minimizing cargo claims. We believe our transit times are generally faster than those of our principal national competitors, in part because of our more efficient service center network, use of team drivers and proprietary technology. In addition, we provide greater geographic coverage than most of our regional competitors. Our diversified mix and scope of regional, inter-regional and national service, combined with our value-added service offerings, enables us to provide our customers with a single source to meet their shipping and logistics needs. We believe this provides us with a distinct advantage over most of our regional, multi-regional and national competition.

We utilize flexible scheduling and train our union-free employees to perform multiple tasks, which we believe allows us to achieve greater productivity and higher levels of customer service than our competitors. We believe our focus on employee communication, continued education, development and motivation strengthens the relationships and trust among our employees.

We compete with several large and more diversified transportation service providers, each of which may have more equipment, a broader global network and a wider range of services than we have. Our larger competitors may also have greater financial resources and, in general, the ability to reduce prices to gain business, especially during times of reduced growth rates in the economy.

Service Center Operations

At December 31, 2012, we conducted operations through 218 service center locations, of which we owned 150 and leased 68. We operate ten major breakbulk facilities in Rialto, California; Atlanta, Georgia; Chicago, Illinois; Indianapolis, Indiana; Greensboro, North Carolina; Harrisburg, Pennsylvania; Memphis and Morristown, Tennessee; Dallas, Texas; and Salt Lake City, Utah, while using other service centers for limited breakbulk activity in order to serve our next-day markets. Our service centers are strategically located in six regions of the country to provide the highest quality service and minimize freight rehandling costs.

Our service centers are responsible for the pickup and delivery of freight within their service area. Each night, our service centers load outbound freight for transport to other service centers for delivery. All inbound freight received by the service center in the evening or during the night is scheduled for local delivery the next business day, unless a customer requests a different delivery schedule. Our management reviews the productivity and service performance of each service center on a daily basis to help ensure quality service and efficient operations.

While we have established primary responsibility for customer service at the local service center level, our customers may access information and initiate transactions through our centralized customer service department located at our corporate office or through several other gateways, such as our website, electronic data interchange (“EDI”), email and fax notification systems and automated voice response systems. Our systems offer direct access to information such as freight tracking, shipping documents, rate quotes, rate databases and account activity. These centralized systems and our customer service department provide our customers with a single point of contact to access information across all areas of our operations and for each of our service products.

Linehaul Transportation

Linehaul dispatchers control the movement of freight between service centers through integrated freight movement systems. We also utilize load-planning software to optimize efficiencies in our linehaul operations. Our senior management monitors freight movements, transit times, load factors and many other productivity measurements to ensure that we maintain our highest levels of service and efficiency.

We utilize scheduled routes, and additional linehaul dispatches as necessary, to meet our published transit times. In addition, we lower our cost structure by maintaining flexible workforce rules and by primarily using twin 28-foot trailers in our linehaul operations. The use of twin 28-foot trailers permits us to transport freight directly from its point of origin to destination with minimal unloading and reloading, which also reduces cargo loss and damage expenses. We utilize long-combination vehicles, such as triple 28-foot trailers and combinations of 48-foot and 28-foot trailers, in states where permitted. Twin trailers and long-combination vehicles permit more freight to be hauled behind a tractor than could otherwise be hauled by one large trailer.

Tractors, Trailers and Maintenance

At December 31, 2012, we owned 6,099 tractors. We generally use new tractors in linehaul operations for approximately three to five years and then transfer those tractors to P&D operations for the remainder of their useful lives. In many of our service centers, tractors perform P&D functions during the day and linehaul functions at night to maximize tractor utilization.

At December 31, 2012, we owned 24,181 trailers. We primarily purchase new trailers for our operations; however, we occasionally purchase pre-owned equipment that meets our specifications. The purchase of pre-owned equipment can provide an excellent value but also can increase our fleet’s average age. The table below reflects, as of December 31, 2012, the average age of our tractors and trailers:

Type of Equipment	Number of Units	Average Age (In years)
Tractors	6,099	4.2
Linehaul trailers	17,280	6.1
P&D trailers	6,901	13.2

We develop certain specifications for tractors and trailers and then negotiate the production and purchase of this equipment with several manufacturers. These purchases are planned well in advance of anticipated delivery dates in order to accommodate manufacturers’ production schedules. We believe there is sufficient capacity among suppliers to ensure an uninterrupted supply of equipment to support our operations.

The table below sets forth our capital expenditures for tractors and trailers for the years ended December 31, 2012, 2011 and 2010. For more information concerning our capital expenditures, see Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations – *Liquidity and Capital Resources*" of this report.

<i>(In thousands)</i>	Year Ended December 31,		
	2012	2011	2010
Tractors	\$ 113,257	\$ 69,837	\$ 35,777
Trailers	83,405	62,326	5,020
Total	\$ 196,662	\$ 132,163	\$ 40,797

At December 31, 2012, we had major maintenance operations at our service centers in Rialto, California; Denver, Colorado; Atlanta, Georgia; Indianapolis, Indiana; Kansas City and Parsons, Kansas; Greensboro, North Carolina; Columbus, Ohio; Harrisburg, Pennsylvania; Morristown and Memphis, Tennessee; Dallas, Texas; and Salt Lake City, Utah. In addition, 22 other service center locations are equipped to perform routine and preventive maintenance and repairs on our equipment.

We adhere to established maintenance policies and procedures to help ensure our fleet is properly maintained. Tractors are routed to appropriate maintenance facilities at designated mileage intervals or 90 days, whichever occurs first. Trailers are scheduled for maintenance every 90 days.

Customers

Revenue is generated by customers dispersed primarily throughout the United States and North America. In 2012, our largest customer accounted for approximately 2.6% of our revenue and our largest 5, 10 and 20 customers accounted for approximately 8.9%, 14.0% and 21.1% of our revenue, respectively. For each of the previous three years, more than 90% of our revenue was derived from transporting LTL shipments for our customers and less than 5% of our revenue was generated from international services. We believe the diversity of our customer base helps protect our business from adverse developments in a single geographic region and from the reduction or loss of business from a single customer.

We utilize an integrated freight-costing system to determine the price level at which a particular shipment of freight will be profitable. We can modify elements of this freight-costing model to simulate the actual conditions under which the freight will be moved. Many of our customers engage our services through the terms and provisions of our tariffs. We also compete for business by participating in bid solicitations. Customers generally solicit bids for relatively large numbers of shipments for a period of one to two years and typically choose to enter into contractual arrangements with a limited number of motor carriers based upon price and service.

Seasonality

Our operations are subject to seasonal trends common in the trucking industry. Our operating margins in the first quarter are normally lower due to reduced demand during the winter months. Harsh weather can also adversely affect our performance by reducing demand and reducing our ability to transport freight, which could result in decreased revenue and increased operating expenses.

Technology

We continually upgrade and enhance our technological capabilities, and we provide access to our systems through multiple gateways that offer our customers maximum flexibility and immediate access to information. We employ vehicle safety systems, on-board and hand-held computer systems, freight handling systems and logistics technology to reduce costs and transit times. We continue to focus on the development and enhancement of the technology used in our operations in order to improve the efficiency and effectiveness of our services.

Insurance

We carry a significant amount of insurance with third-party insurance carriers, but we are exposed to the risk of loss on claims up to the limit for which we hold either a self-insured retention ("SIR") or deductible. At December 31, 2012, we maintained an SIR of \$2.75 million per occurrence for bodily injury and property damage ("BIPD") claims, a deductible of \$100,000 per claim for cargo loss and damage, a deductible of \$1.0 million per occurrence for workers' compensation claims and an SIR of \$400,000 per occurrence (with a \$200,000 aggregate over our retention level) for group health claims.

We believe that our policy of maintaining an SIR or deductible for a portion of our risks, supported by our safety and loss prevention programs, is an effective means of managing insurance costs. We periodically review our risks and insurance coverage applicable to those risks and we believe that our current insurance coverage is sufficient.

Diesel Fuel Availability and Cost

Our industry depends heavily upon the availability of diesel fuel. Although we currently maintain fuel storage and pumping facilities at 50, or 23%, of our service center locations, we may be susceptible to fuel shortages at certain locations that could cause us to incur additional expense to help ensure adequate supply on a timely basis to prevent a disruption to our service schedules.

Diesel fuel costs, including fuel taxes, totaled 14.4%, 15.0% and 13.1% of revenue in 2012, 2011 and 2010, respectively. We believe our operations and financial condition are susceptible to the same diesel fuel price increases or shortages as those of our competitors. We implemented a fuel surcharge program in August 1999, which has remained in effect since that time and is one of many components that we use to determine the overall price for our transportation services. Our fuel surcharges are generally indexed to fuel prices published by the U.S. Department of Energy (the “DOE”) that reset each week.

Employees

As of December 31, 2012, we employed 13,016 individuals on a full-time basis, none of which were represented under a collective bargaining agreement. Our full-time employees work in the following roles:

Full-Time Employees	Number of Employees
Drivers	6,940
Platform	2,050
Fleet technicians	461
Sales	513
Salaried, clerical and other	3,052
Total	13,016

As of December 31, 2012, we employed 3,484 linehaul drivers and 3,456 P&D drivers on a full-time basis. We select our drivers primarily based upon safe driving records and experience. Among other requirements, our drivers must pass a drug test, have a current U.S. Department of Transportation (“DOT”) physical and have a valid commercial driver’s license prior to employment. Once employed, drivers are required to obtain and maintain hazardous materials endorsements to their commercial driver’s licenses. Drivers, as well as all employees, are required to take pre-employment drug and alcohol tests and are randomly selected for periodic additional testing.

To help fulfill driver needs, we offer qualified employees the opportunity to become drivers through the “Old Dominion Driver Training Program.” Since its inception in 1988 through December 31, 2012, 3,297 individuals have graduated from this program. Of the program graduates, we have experienced an annual turnover rate of approximately 6.1%, which is below our Company-wide average turnover rate of approximately 11.6% for drivers. We believe our driver training and qualification programs have been important factors in improving our safety record and retaining qualified drivers. Drivers with safe driving records are rewarded with bonuses of up to \$3,000 payable each year. Driver safety bonuses paid during 2012 and 2011 were \$2.6 million and \$2.3 million, respectively.

At December 31, 2012, we had a sales staff of 513 employees. We compensate our sales force, in part, based upon certain operating metrics to help motivate our sales employees to achieve our service, growth and profitability objectives.

Governmental Regulation

We are subject to regulation by many federal governmental agencies, including the Federal Motor Carrier Safety Administration (the “FMCSA”), the Pipeline and Hazardous Materials Safety Agency and the Surface Transportation Board, which are agencies within the DOT. We are also subject to rules and regulations of various state agencies. These regulatory authorities have broad powers, generally governing matters such as authority to engage in motor carrier operations, motor carrier registration, driver hours of service, safety and fitness of transportation equipment and drivers, certain mergers, consolidations and acquisitions and periodic financial reporting. In addition, we are subject to compliance with cargo-security

and transportation regulations issued by the Transportation Security Administration within the U.S. Department of Homeland Security.

In October 2009, the U.S. Court of Appeals for the District of Columbia Circuit ordered the FMCSA to review and re-issue rules governing hours of service for commercial truck drivers by July 26, 2011. This deadline was extended and on December 22, 2011, the FMCSA issued its final rule, which requires compliance by July 1, 2013. The final rule reduces the maximum number of hours a truck driver can work each week to 70 hours from the current 82-hour limit. The rule maintains the current maximum 11-hour daily driving limit, but requires drivers to take a 30-minute break prior to driving beyond eight hours. The rule also includes a "34-hour restart" provision that allows drivers to restart the clock on their work week by taking at least 34 consecutive hours off-duty, provided these 34 off-duty hours includes two periods between 1:00 a.m. and 5:00 a.m. and occurs only once during a seven-day period. We do not believe this new rule, when implemented, will have a significant impact on our operating procedures and will not significantly impact our costs. We are, however, subject to future rulemaking by the FMCSA and other regulatory agencies, which could be more stringent, require changes to our operations, increase our operating costs or otherwise adversely impact our results of operations.

The trucking industry is subject to regulatory and legislative changes from a variety of other governmental authorities, which address matters such as: (i) increasingly stringent environmental and occupational safety and health regulations; (ii) limits on vehicle weight and size; (iii) ergonomics; (iv) port security; and (v) hours of service. These changes may affect our business or the economics of our industry by requiring changes in operating practices, or by influencing the demand for and increasing the costs of providing our services.

Environmental Regulation

We are subject to various federal, state and local environmental laws and regulations that focus on, among other things: the emission and discharge of hazardous materials into the environment or their presence at our properties or in our vehicles; fuel storage tanks; transportation of certain materials; and the discharge or retention of storm water. Under specific environmental laws, we could also be held responsible for any costs relating to contamination at our past or present facilities and at third-party waste disposal sites, as well as costs associated with clean-up of accidents involving our vehicles. We do not believe that the cost of future compliance with current environmental laws or regulations will have a material adverse effect on our operations, financial condition, competitive position or capital expenditures for the remainder of 2013. However, future changes to laws or regulations may adversely affect our operations and could result in unforeseen costs to our business.

Available Information

Through our website, <http://www.odfl.com>, we make available, free of charge, our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and any amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as soon as practicable after we electronically file the material with or furnish it to the U.S. Securities and Exchange Commission (the "SEC"). The public may read or copy any document we file with the SEC at the SEC's website, <http://www.sec.gov> (File No. 0-19582), or at the SEC's Public Reference Room at 100 F Street, NE, Washington, D.C. 20549-2736. The SEC can be reached at 1-800-SEC-0330 for further information on the operation of the Public Reference Room. Information contained on our website is neither part of nor incorporated by reference into this Form 10-K or any other report we file with or furnish to the SEC.

ITEM 1A. RISK FACTORS

Various factors exist that could cause our actual results to differ materially from those projected in any forward-looking statement. In addition to the factors discussed elsewhere in this report, we believe the following are some of the important risks and uncertainties that could materially affect our business, financial condition or results of operations:

We operate in a highly competitive industry, and our business will suffer if we are unable to adequately address potential downward pricing pressures and other factors that may adversely affect our operations and profitability.

Numerous competitive factors could impair our ability to maintain our current profitability. These factors include, but are not limited to, the following:

- we compete with many other transportation service providers of varying sizes, some of which may have more equipment, a broader global network, a wider range of services, greater capital resources or other competitive advantages;

- some of our competitors periodically reduce their prices to gain business, especially during times of reduced growth rates in the economy, which may limit our ability to maintain or increase prices or maintain revenue;
- we may be unable to continue to collect fuel surcharges or our fuel surcharge program may become ineffective in mitigating the impact of fluctuating costs for fuel and other petroleum-based products;
- many customers reduce the number of carriers they use by selecting “core carriers” as approved transportation service providers and we may not be selected;
- many customers periodically accept bids from multiple carriers for their shipping needs, and this process may depress prices or result in the loss of some business to competitors;
- some customers may choose to operate their own private trucking fleet or may choose to increase the volume of freight they transport if they have an existing private trucking fleet;
- some customers may choose to consolidate certain LTL shipments through a different mode of transportation, such as truckload, intermodal or rail;
- the trend towards consolidation in the ground transportation industry may create other large carriers with greater financial resources and other competitive advantages relating to their size;
- advances in technology require increased investments to remain competitive, and our customers may not be willing to accept higher prices to cover the cost of these investments; and
- competition from non-asset-based logistics and freight brokerage companies may adversely affect our customer relationships and ability to maintain sufficient pricing.

If we are unable to effectively compete with other LTL carriers, whether on the basis of price, service or otherwise, we may be unable to retain existing customers or attract new customers, either of which could have a material adverse effect on our business, financial condition and results of operations.

If our employees were to unionize, our operating costs would increase and our ability to compete would be impaired.

None of our employees are currently represented under a collective bargaining agreement. However, from time to time there have been efforts to organize our employees at various service centers. Further, Congress or one or more states could approve legislation and/or the National Labor Relations Board could render decisions that could significantly affect our business and our relationship with our employees, including actions that could substantially liberalize the procedures for union organization. In addition, we can offer no assurance that the Department of Labor will not adopt new regulations or interpret existing regulations in a manner that would favor the agenda of unions, or that our employees will not unionize in the future, particularly if regulatory changes occur that facilitate unionization.

The unionization of our employees could have a material adverse effect on our business, financial condition and results of operations because:

- some shippers have indicated that they intend to limit their use of unionized trucking companies because of the threat of strikes and other work stoppages;
- restrictive work rules could hamper our efforts to improve and sustain operating efficiency;
- restrictive work rules could impair our service reputation and limit our ability to provide next-day services;
- a strike or work stoppage would negatively impact our profitability and could damage customer and employee relationships; and
- an election and bargaining process could divert management’s time and attention from our overall objectives and impose significant expenses.

If we are unable to successfully execute our growth strategy, our business and future results of operations may suffer.

Our growth strategy includes increasing the volume of freight moving through our existing service center network, selectively expanding our geographic footprint and broadening the scope of our service offerings. In connection with our growth strategy, at various times, we have made selective acquisitions, purchased additional equipment, expanded and upgraded service centers and increased our sales and marketing efforts, and we expect to continue to do so. Our growth strategy exposes us to a number of risks, including the following:

- geographic expansion requires start-up costs that could expose us to temporary losses;
- growth and geographic expansion are dependent on the availability of real estate, and shortages of suitable real estate may limit our geographic expansion and might cause congestion in our service center network, which could result in increased operating expenses;
- growth may strain our management, capital resources, information systems and customer service;
- hiring new employees may increase training costs and may result in temporary inefficiencies until those employees become proficient in their jobs; and
- expanding our service offerings may require us to enter into new markets and encounter new competitive challenges.

We cannot assure that we will overcome the risks associated with our growth strategy. If we fail to overcome those risks, we may not realize additional revenue or profits from our efforts, we may incur additional expenses and, therefore, our financial position and results of operations could be materially and adversely affected.

We may be unable to successfully consummate and integrate acquisitions as part of our growth strategy.

Growth through acquisitions has been a key component of our LTL growth strategy throughout our history. In the future, we may seek to acquire other LTL carriers as well as other complementary businesses. Exploration of potential acquisitions requires significant attention from our senior management team. In addition, we expect to compete for acquisition opportunities with other companies, some of which may have greater financial and other resources than we do. We cannot assure that we will have sufficient cash with which to consummate an acquisition or otherwise be able to obtain financing for any acquisition. If we are unable to access sufficient funding for potential acquisitions, we may not be able to complete transactions that we otherwise find advantageous.

Any subsequent acquisition will entail numerous risks, including:

- we may not achieve anticipated levels of revenue, efficiency, cash flows and profitability;
- we may experience difficulties managing businesses that are outside our historical core competency and markets;
- we may underestimate the resources required to support acquisitions, which could disrupt our ongoing business and distract our management;
- we may incur unanticipated costs to our infrastructure to support new business lines or separate legal entities;
- we may be required to temporarily match existing customer pricing in the acquiree's markets, which may be lower than the rates that we would typically charge for our services;
- liabilities we assume could be greater than our original estimates or not disclosed to us at the time of acquisition;
- we may incur additional indebtedness or we may issue additional equity to finance future acquisitions, which could be dilutive to our shareholders;
- potential loss of key employees and customers of the acquired company;
- and
- an inability to recognize projected cost savings and economies of scale.

In addition, we may have difficulty integrating any acquired business and its operations, services and personnel into our existing operations, and such integration may require a significant amount of time and effort by our management team. To the extent we do not successfully avoid or overcome the risks or problems resulting from any acquisitions we undertake, there could be a material adverse effect on our business, financial condition and results of operations.

Our customers' and suppliers' business may be impacted by a downturn in the economy and/or a disruption of financial markets.

Adverse economic conditions can negatively affect our customers' business levels, the amount of transportation services they need, their ability to pay for our services and overall freight levels, all of which might impair our asset utilization. Customers encountering adverse economic conditions may be unable to obtain additional financing, or financing under acceptable terms, due to disruptions in the capital and credit markets. These customers represent a greater potential for bad debt losses, which may require us to increase our reserve for bad debt. Economic conditions resulting in bankruptcies of one or more of our large customers could have a significant impact on our financial position, results of operations or liquidity in a particular year or quarter. Further, when adverse economic times arise customers may bid out freight or select competitors that offer lower rates in an attempt to lower their costs and we might be forced to lower our rates or lose freight.

Our suppliers' business levels also may be negatively affected by adverse economic conditions or financial constraints, which could lead to disruptions in the supply and availability of equipment, parts and services critical to our operations. A significant interruption in our normal supply chain could disrupt our operations, increase our costs and negatively impact our ability to serve our customers.

We also are subject to cost increases outside our control that could materially reduce our profitability if we are unable to increase our rates sufficiently. Such cost increases include, but are not limited to, increases in fuel prices, driver wages, interest rates, taxes, tolls, license and registration fees, insurance, revenue equipment and healthcare for our employees.

Increases in driver compensation or other difficulties attracting and retaining qualified drivers could adversely affect our profitability and ability to maintain or grow our fleet.

From time to time we have experienced difficulty in attracting and retaining sufficient numbers of qualified drivers and such shortages may recur in the future. Because of the intense competition for drivers, we may face difficulty maintaining or increasing our number of drivers. The compensation we offer our drivers is subject to market conditions that may require increases in driver compensation, which becomes more likely as economic conditions improve. If we are unable to attract and retain a sufficient number of drivers, we could be required to adjust our compensation packages, or operate with fewer trucks and face difficulty meeting shipper demands, all of which could adversely affect our profitability and ability to maintain our size or grow.

Insurance and claims expenses could significantly reduce our profitability.

We are exposed to claims related to cargo loss and damage, property damage, personal injury, workers' compensation, group health and group dental. We have insurance coverage with third-party insurance carriers, but we assume a significant portion of the risk associated with these claims due to our self-insured retentions and deductibles. Our operating results would be adversely affected if any of the following were to occur: (i) the number or severity of claims increases; (ii) we are required to accrue or pay additional amounts because the claims prove to be more severe than our original assessment; or (iii) claims exceed our excess coverage amounts. If claims exceed our retention or deductible levels or insurance market conditions change, insurers could raise premiums for excess coverage to cover their expenses and anticipated future losses. In addition, insurance companies require us to obtain letters of credit to collateralize our retention or deductible levels. If these requirements increase, our borrowing capacity could be adversely affected.

Recent healthcare legislation may increase our costs and reduce our future profitability.

To attract and retain employees, we maintain a competitive health insurance plan for our employees and their dependents. The Patient Protection and Affordable Care Act, signed into law in 2010, is expected to increase our annual employee healthcare costs going forward. We cannot predict the extent that this legislation, or any future state or federal healthcare legislation or regulation, will have on us. However, rising healthcare costs and universal healthcare coverage in the United States could result in significant long-term costs to us, which could have a material adverse effect on our operating results. In addition, rising healthcare costs could force us to make changes to our benefits program, which could negatively impact our ability to attract and retain employees.

We have significant ongoing cash requirements that could limit our growth and affect our profitability if we are unable to obtain sufficient capital.

Our business is highly capital intensive. We generally finance our capital expenditures and planned growth with existing cash, cash flow from operations, issuance of debt and through available borrowings under our existing senior unsecured credit agreement. We may require additional capital to finance long-term real estate purchase opportunities and acquisitions, which we may fund through additional debt or through equity offerings. If we are unable in the future to generate sufficient cash from our operations or raise capital by accessing the debt and equity markets, we may be forced to limit our growth and operate our equipment for longer periods of time, which could have a material adverse effect on our operating results.

Our business also has significant ongoing operating cash requirements. If our cash requirements are high or our cash flow from operations is low during particular periods, we may need to seek additional financing, which could be costly or difficult to obtain.

Limited supply and increased prices for new equipment may adversely affect our earnings and cash flow.

We may face difficulty in purchasing new equipment due to decreased supply and increased costs. Investment in new equipment is a significant part of our annual capital expenditures and we require an available supply of tractors and trailers from equipment manufacturers to operate and grow our business. We are also subject to shortages in raw materials that are required for the production of critical operating equipment and supplies, such as shortages in rubber or steel.

The price of our equipment may also be adversely affected in the future by regulations on newly manufactured tractors and diesel engines. We have incurred significant increases in the cost of tractors due to regulations of the U.S. Environmental Protection Agency (the "EPA") that require progressive reductions in exhaust emissions from diesel engines. Beginning in October 2002, new diesel engines were required to meet these new emission limits. Some of the regulations required reductions in the sulfur content of diesel fuel beginning in June 2006 and the introduction of emissions after-treatment devices on newly-manufactured engines and vehicles beginning with model-year 2007. The final phase of these regulations required reduced nitrogen and non-methane hydrocarbon emissions beginning with model-year 2010. Beginning in 2013, these regulations also require that all heavy-duty diesel engines built for highway applications over 14,000 pounds include certified onboard diagnostics systems to monitor emissions. These regulations have resulted in higher prices for tractors and diesel engines and increased operating and maintenance costs, and there can be no assurance that continued increases in pricing or costs will not have an adverse effect on our business and results of operations.

We may be adversely impacted by fluctuations in the availability and price of diesel fuel.

Diesel fuel is a critical component of our operations and a significant operating expense for our business. Diesel fuel prices and fuel availability can be impacted by factors beyond our control, such as natural or man-made disasters, political events, price and supply decisions by oil producing countries and cartels, terrorist activities, armed conflict and world supply and demand imbalances. We maintain fuel storage and pumping facilities at many of our service center locations; however, we may be susceptible to fuel shortages at certain locations that could cause us to incur additional expense to ensure adequate supply on a timely basis to prevent a disruption to our service schedules. An interruption in the supply of diesel fuel could have a material adverse effect on our operating results.

We do not hedge against the risk of diesel fuel price increases. An increase in diesel fuel prices or diesel fuel taxes, or any change in federal or state regulations that results in such an increase, could have a material adverse effect on our operating results. We have fuel surcharge programs in place with a majority of our customers, which have helped us offset the majority of the negative impact of the increased cost of diesel fuel and other petroleum-based products. However, we also incur fuel costs that cannot be recovered even with respect to customers with which we maintain fuel surcharge programs, such as those costs associated with empty miles or the time when our engines are idling. Because our fuel surcharge recovery lags behind changes in fuel prices, our fuel surcharge recovery may not capture the increased costs we pay for fuel, especially when prices are rising, leading to fluctuations in our levels of reimbursement. We regularly monitor the components of our pricing, including fuel surcharges, and address individual account profitability issues with our customers when necessary; however, there can be no assurance that fuel surcharges can be maintained indefinitely or will be sufficiently effective in offsetting increases in diesel fuel prices.

We are subject to various environmental laws and regulations, and costs of compliance with, liabilities under, or violations of, existing or future environmental laws or regulations could adversely affect our business.

We are subject to various federal, state and local environmental laws and regulations that govern, among other things, the emission and discharge of hazardous materials into the environment, the presence of hazardous materials at our properties or in our vehicles, fuel storage tanks, the transportation of certain materials and the discharge or retention of storm water. Under certain environmental laws, we could also be held responsible for any costs relating to contamination at our past or present facilities and at third-party waste disposal sites, as well as costs associated with the clean-up of accidents involving our vehicles. Environmental laws have become and are expected to continue to be increasingly more stringent over time, and there can be no assurance that our costs of complying with current or future environmental laws or liabilities arising under such laws will not have a material adverse effect on our business, operations or financial condition.

In addition to the EPA regulations on exhaust emissions with which we must comply, there is an increased regulatory focus on climate change and greenhouse gas emissions in the United States. As a result, we may become subject to additional

legislation or rulemaking that could adversely impact our business. Any future limitations on the emission of greenhouse gases or other environmental legislation could increase our future capital expenditures and have an adverse impact on our financial condition, results of operations and liquidity.

We are subject to the risks of litigation and governmental proceedings, which could adversely affect our business.

We are, and in the future may be, subject to legal and governmental proceedings and claims. The parties in such legal actions may seek amounts from us that may not be covered in whole or in part by insurance. Defending ourselves against such legal actions could result in significant costs and could require a substantial amount of time and effort by our management team. We cannot predict the outcome of litigation or governmental proceedings to which we are a party or whether we will be subject to future legal actions. As a result, the potential costs associated with legal actions against us could have an adverse effect on our business, financial condition and results of operations.

We operate in a highly regulated industry, and increased costs of compliance with, or liability for violation of, existing or future regulations could have a material adverse effect on our business.

We are regulated by the DOT and by various state agencies. These regulatory authorities have broad powers, generally governing matters such as authority to engage in motor carrier operations, as well as motor carrier registration, driver hours of service, safety and fitness of transportation equipment and drivers, transportation of hazardous materials, certain mergers and acquisitions and periodic financial reporting. In addition, the trucking industry is subject to regulatory and legislative changes from a variety of other governmental authorities, which address matters such as: (i) increasingly stringent environmental, occupational safety and health regulations; (ii) limits on vehicle weight and size; (iii) ergonomics; (iv) port security; and (v) hours of service. In addition, we are subject to compliance with cargo-security and transportation regulations issued by the Transportation Security Administration within the U.S. Department of Homeland Security. Regulatory requirements, and changes in regulatory requirements, may affect our business or the economics of the industry by requiring changes in operating practices or by influencing the demand for and increasing the costs of providing transportation services.

In October 2009, the U.S. Court of Appeals for the District of Columbia Circuit ordered the FMCSA to review and re-issue rules governing hours of service for commercial truck drivers by July 26, 2011. This deadline was extended and on December 22, 2011, the FMCSA issued its final rule, which requires compliance by July 1, 2013. The final rule reduces the maximum number of hours a truck driver can work each week to 70 hours from the current 82-hour limit. The rule maintains the current maximum 11-hour daily driving limit, but requires drivers to take a 30-minute break prior to driving beyond eight hours. The rule also includes a “34-hour restart” provision that allows drivers to restart the clock on their work week by taking at least 34 consecutive hours off-duty, provided these 34 off-duty hours includes two periods between 1:00 a.m. and 5:00 a.m. and occurs only once during a seven-day period. We do not believe this new rule, when implemented, will have a significant impact on our operating procedures and will not significantly impact our costs. We are, however, subject to future rulemaking by the FMCSA and other regulatory agencies, which could be more stringent, require changes to our operations, increase our operating costs or otherwise adversely impact our results of operations.

The FMCSA’s Compliance, Safety, Accountability initiative (“CSA”) could adversely impact our ability to hire qualified drivers, meet our growth projections and maintain our customer relationships, each of which could adversely impact our results of operations.

The CSA includes compliance and enforcement initiatives designed to monitor and improve commercial motor vehicle safety by measuring the safety record of both the motor carrier and the driver. These measurements are scored and used by the FMCSA to identify potential safety risks and to direct enforcement action. CSA scores for transportation companies are currently available on the FMCSA’s website.

Our CSA scores are dependent upon our safety and compliance experience, which could change at any time. In addition, the safety standards prescribed in CSA could change and our ability to maintain an acceptable score could be adversely impacted. If we receive an unacceptable CSA score, our relationships with our customers could be damaged, which could result in a loss of business.

The requirements of CSA could shrink the industry’s pool of drivers as those with unfavorable scores could leave the industry. As a result, the costs to attract, train and retain qualified drivers could increase. In addition, a shortage of qualified drivers could increase driver turnover, decrease asset utilization, limit growth and adversely impact our results of operations.

Our results of operations may be affected by seasonal factors and harsh weather conditions.

Our operations are subject to seasonal trends common in the trucking industry. Our operating margins in the first quarter are normally lower due to reduced demand during the winter months. Harsh weather can also adversely affect our performance by reducing demand and reducing our ability to transport freight, which could result in decreased revenue and increased operating expenses.

If we are unable to retain our key employees, our financial condition, results of operations and liquidity could be adversely affected.

Our success will continue to depend upon the experience and leadership of our key employees and executive officers. In that regard, the loss of the services of any of our key personnel could have a material adverse effect on our financial condition, results of operations and liquidity.

Our principal shareholders control a large portion of our outstanding common stock.

Earl E. Congdon, David S. Congdon, John R. Congdon and members of their respective families beneficially own an aggregate of approximately 27% of the outstanding shares of our common stock. As long as the Congdon family controls a large portion of our voting stock, they may be able to significantly influence the election of the entire Board of Directors and the outcome of all matters involving a shareholder vote. The Congdon family's interests may differ from the interests of other shareholders and the status of their ownership could change at their discretion.

Our financial results may be adversely impacted by potential future changes in accounting practices.

Future changes in accounting standards or practices, and related legal and regulatory interpretations of those changes, may adversely impact public companies in general, the transportation industry or our operations specifically. New accounting standards or requirements, such as a conversion from U.S. generally accepted accounting principles to International Financial Reporting Standards, could change the way we record revenues, expenses, assets and/or liabilities or could be costly to implement. These types of regulations could have a negative impact on our financial position, liquidity, results of operations and/or access to capital.

Our information technology systems are subject to certain risks that we cannot control.

We are reliant on our information systems for our operations as well as providing a value-added service to our customers. Our information systems, including our accounting systems, are dependent upon third-party software, global communications providers, data network systems and other aspects of technology and Internet infrastructure that are susceptible to failure or an adverse cyber incident. Although we have implemented redundant systems and network security measures, our information technology remains susceptible to interruptions caused by natural disasters, outages, computer viruses, break-ins and similar disruptions. Such an event could inhibit our ability to provide services to our customers and the ability of our customers to access our systems. In addition, there could be a loss of confidential information, corruption of data and damage to our brand image. This may result in a reduction in demand for our services or the loss of customers that could have a negative impact on our financial condition, results of operations and liquidity.

Misuse of social media outlets could damage our reputation and adversely affect our financial condition.

Customers, competitors, employees and other individuals continue to increase the use of social media outlets, and we maintain and manage our own corporate presence through various social media outlets. We support new ways of sharing data and communicating through these social media outlets. However, information distributed via social networking could result in unfavorable publicity about us being disseminated quickly and broadly. This unfavorable publicity could damage our reputation and may result in a reduction in demand for our services or the loss of customers that could have a negative impact on our financial condition, results of operations and liquidity.

A decrease in the demand and value of used equipment may impact our results of operations.

As we purchase new tractors as part of our normal replacement cycle each year, we rely on the used equipment market to dispose of our older equipment. Oversupply in the transportation industry as well as adverse domestic and foreign economic conditions can negatively impact the demand for used tractors and, therefore, reduce the value we can obtain on our used equipment. If we are unable to sell our older equipment at or above salvage value, the resulting losses could have a significant impact on our results of operations.

If we raise additional capital in the future, your ownership in us could be diluted.

Any issuance of equity we may undertake in the future to raise additional capital could cause the price of our common stock to decline, or require us to issue shares at a price that is lower than that paid by holders of our common stock in the past, which would result in those newly issued shares being dilutive. If we obtain funds through a credit facility or through the issuance of debt or preferred securities, these obligations and securities would likely have rights senior to your rights as a common shareholder, which could impair the value of our common stock.

The market value of our common stock may fluctuate and could be substantially affected by various factors.

The price of our common stock on the NASDAQ Global Select Market constantly changes. We expect that the market price of our common stock will continue to fluctuate as a result of a variety of factors, many of which are beyond our control. These factors include, among others:

- Actual or anticipated variations in earnings, financial or operating performance or liquidity;
- Changes in analysts' recommendations or projections;
- Failure to meet analysts' projections;
- General economic and capital market conditions;
- Announcements of developments related to our business;
- Operating and stock performance of other companies deemed to be peers;
- Actions by government regulators; and
- News reports of trends, concerns and other issues related to us or our industry, including changes in regulations.

Our common stock price may fluctuate significantly in the future, and these fluctuations may be unrelated to our performance. General market price declines or market volatility in the future could adversely affect the price of our common stock, and the current market price of our common stock may not be indicative of future market prices.

Our articles of incorporation, our bylaws and Virginia law contain provisions that could discourage, delay or prevent a change in our control or our management.

Provisions of our articles of incorporation, bylaws and the laws of Virginia, the state in which we are incorporated, may discourage, delay or prevent a change in control of us or a change in management that shareholders may consider favorable. These provisions:

- limit who may call a special meeting of shareholders;
- require shareholder action by written consent to be unanimous;
- establish advance notice requirements for nominations for election to our Board of Directors or for proposing matters that can be acted upon at shareholder meetings;
- may make it difficult to merge with or otherwise absorb a Virginia corporation acquired in a tender offer for the three years after the acquisition; and
- may make an unsolicited attempt to gain control of us more difficult by restricting the right of specified shareholders to vote newly acquired large blocks of stock.

These provisions could discourage proxy contests and make it more difficult for you and other shareholders to take certain corporate actions. These provisions could also limit the price that investors might be willing to pay in the future for shares of our common stock.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

We own our general office located in Thomasville, North Carolina, consisting of a two-story office building of approximately 160,000 square feet on 30.1 acres of land. At December 31, 2012, we operated 218 service centers, of which 150 were owned and 68 were leased. Our service centers that are owned include most of our larger facilities and account for 81.9% of the total door capacity in our network. With the exception of our Chicago, Illinois facility, which has a lease that expires in 2021, we own our major breakbulk facilities. Each of our major breakbulk facilities is listed below with the number of doors as of December 31, 2012.

Service Center	Doors
Morristown, Tennessee	347
Indianapolis, Indiana	318
Harrisburg, Pennsylvania	305
Rialto, California	265
Dallas, Texas	234
Atlanta, Georgia	227
Greensboro, North Carolina	219
Memphis, Tennessee	169
Chicago, Illinois	134
Salt Lake City, Utah	129

Our 218 facilities are strategically dispersed over the states in which we operate. At December 31, 2012, the terms of our leased properties ranged from month-to-month to a lease that expires in 2023. We believe that as current leases expire, we will be able to renew them or find comparable facilities without incurring any material negative impact on service to our customers or our operating results.

We also own 17 non-operating properties, all of which are held for lease or are planned for future use. Seven of these properties are leased with lease terms that range from month-to-month to a lease that expires in 2017.

We believe that all of our properties are in good repair and are capable of providing the level of service required by current business levels and customer demands. In addition, we believe we have sufficient capacity in our service center network to accommodate a substantial increase in demand for our services.

ITEM 3. LEGAL PROCEEDINGS

We are involved in various legal proceedings and claims that have arisen in the ordinary course of our business that have not been fully adjudicated. Many of these are covered in whole or in part by insurance. Our management does not believe that these actions, when finally concluded and determined, will have a material adverse effect upon our financial position, liquidity or results of operations.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Common Stock and Dividend Information

Our common stock is traded on the NASDAQ Global Select Market ("Nasdaq") under the symbol ODFL. At February 15, 2013, there were approximately 22,409 holders of our common stock, including 177 shareholders of record. We did not pay any dividends on our common stock during fiscal year 2012 or 2011, and we have no current plans to declare or pay any dividends on our common stock during fiscal year 2013. For information concerning restrictions on our ability to make dividend payments, see *Liquidity and Capital Resources* in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" and Note 2 in Item 8, "Financial Statements and Supplementary Data" of this report.

On August 13, 2012, we announced a three-for-two common stock split for shareholders of record as of the close of business on the record date, August 24, 2012. On September 7, 2012 those shareholders received one additional share of common stock for every two shares owned. In lieu of fractional shares, shareholders received a cash payment based on the average of the high and low sales prices of our common stock on the record date.

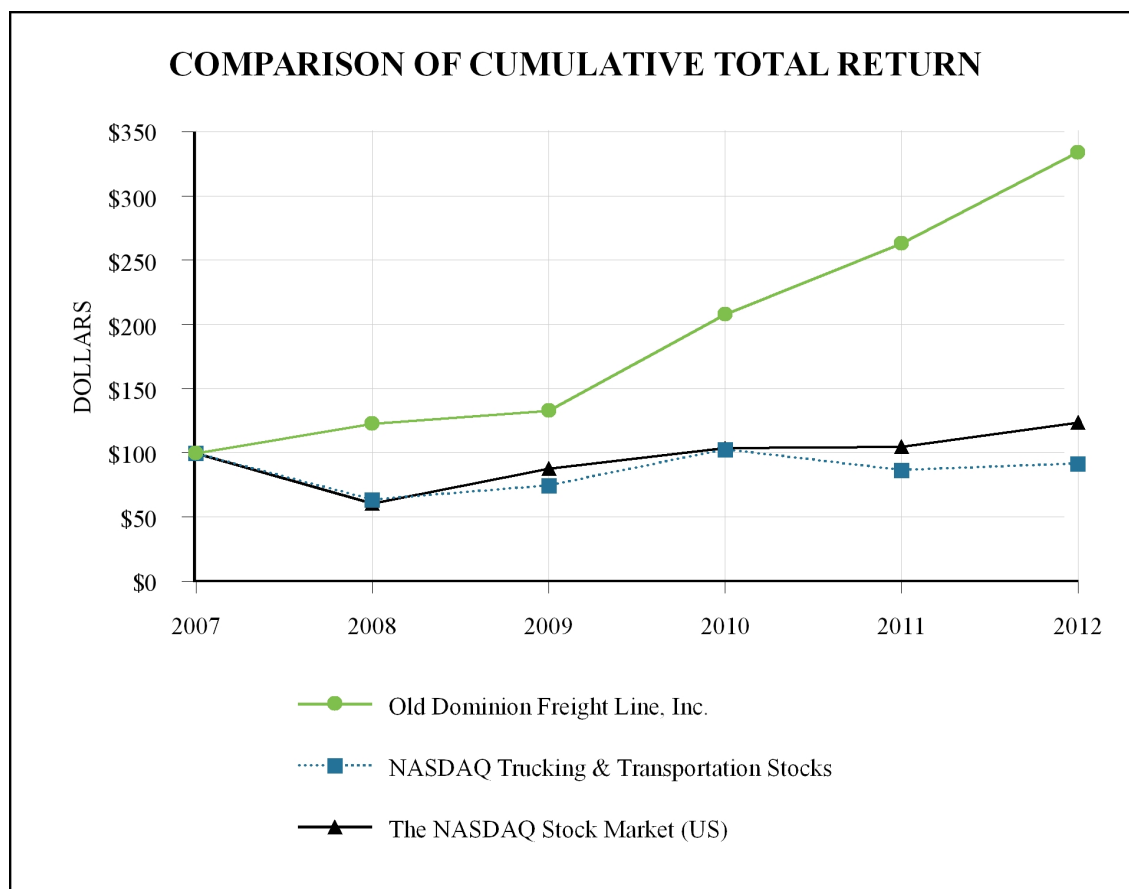

The following table sets forth the high and low sales price of our common stock for the periods indicated, as reported by Nasdaq and as adjusted to give effect to the three-for-two stock split effected in September 2012:

		2012			
		First Quarter	Second Quarter	Third Quarter	Fourth Quarter
High		\$ 32.87	\$ 32.77	\$ 32.06	\$ 35.13
Low		\$ 25.54	\$ 27.04	\$ 26.12	\$ 28.75

		2011			
		First Quarter	Second Quarter	Third Quarter	Fourth Quarter
High		\$ 23.54	\$ 25.65	\$ 26.75	\$ 27.73
Low		\$ 18.91	\$ 22.41	\$ 18.50	\$ 18.27

Performance Graph

The following graph compares the total shareholder cumulative returns, assuming the reinvestment of all dividends, of \$100 invested on December 31, 2007, in (i) our common stock, (ii) the NASDAQ Trucking & Transportation Stocks and (iii) The NASDAQ Stock Market (US) for the five-year period ended December 31, 2012:

Cumulative Total Return

	12/31/07	12/31/08	12/31/09	12/31/10	12/31/11	12/31/12
Old Dominion Freight Line, Inc.....	\$ 100	\$ 123	\$ 133	\$ 208	\$ 263	\$ 334
NASDAQ Trucking & Transportation Stocks.....	\$ 100	\$ 64	\$ 75	\$ 103	\$ 87	\$ 92
The NASDAQ Stock Market (US).....	\$ 100	\$ 61	\$ 88	\$ 104	\$ 105	\$ 124

ITEM 6. SELECTED FINANCIAL DATA

<i>(In thousands, except per share amounts and operating statistics)</i>	Year Ended December 31,				
	2012	2011	2010	2009	2008
Operating Data:					
Revenue from operations	\$ 2,110,483	\$ 1,882,541	\$ 1,480,998	\$ 1,245,005	\$ 1,537,724
Depreciation and amortization expense ⁽¹⁾	110,743	90,820	80,362	94,784	87,083
Total operating expenses	1,825,229	1,648,469	1,343,259	1,174,614	1,408,654
Operating income	285,254	234,072	137,739	70,391	129,070

Total assets	1,712,514	1,513,074	1,239,881	1,159,278	1,074,905
Current liabilities	225,139	204,810	170,046	148,125	142,190
Long-term debt (including current maturities)	240,407	269,185	271,217	305,532	251,989
Shareholders' equity	1,025,969	856,519	668,649	593,000	558,129
Operating Statistics:					
Operating ratio	86.5%	87.6%	90.7%	94.3%	91.6%
Revenue per hundredweight	\$ 15.35	\$ 14.72	\$ 13.09	\$ 12.70	\$ 13.88
Revenue per intercity mile	\$ 5.02	\$ 4.83	\$ 4.38	\$ 4.16	\$ 4.60
Intercity miles <i>(in thousands)</i>	420,214	389,588	338,504	299,330	334,219
Total tons <i>(in thousands)</i>	6,875	6,397	5,656	4,902	5,545
Total shipments <i>(in thousands)</i>	7,765	7,256	6,327	5,750	6,691
Average length of haul <i>(miles)</i>	941	952	948	928	901

- (1) Our 2010 results reflect reductions in our depreciation and amortization expenses of approximately \$12.7 million, due to changes in the estimated useful lives and salvage values of certain equipment, which are described further under "Critical Accounting Policies" below.
- (2) For the purpose of this table, interest expense is presented net of interest income.
- (3) Per share data has been restated retroactively for the three-for-two stock splits effected in September 2012 and August 2010.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

We are a leading, less-than-truckload ("LTL"), union-free motor carrier providing regional, inter-regional and national LTL service and other value-added services from a single integrated organization. In addition to our core LTL services, we offer our customers a broad range of value-added services including ground and air expedited transportation, container delivery, truckload brokerage, supply chain consulting, warehousing and consumer household pickup and delivery services. We also offer worldwide freight forwarding services. More than 90% of our revenue has historically been derived from transporting LTL shipments for our customers, whose demand for our services is generally tied to industrial production and the overall health of the U.S. domestic economy.

In analyzing the components of our revenue, we monitor changes and trends in the following key metrics:

- *Revenue Per Hundredweight* – This measurement reflects the application of our pricing policies to the services we provide, which are influenced by competitive market conditions and our growth objectives. Generally, freight is rated by a class system, which is established by the National Motor Freight Traffic Association, Inc. Light, bulky freight typically has a higher class and is priced at higher revenue per hundredweight than dense, heavy freight. Fuel surcharges, accessorial charges, revenue adjustments and revenue for undelivered freight are included in this measurement. Revenue for undelivered freight is deferred for financial statement purposes in accordance with our revenue recognition policy; however, we believe including it in our revenue per hundredweight metrics results in a better indicator of changes in our yields by matching total billed revenue with the corresponding weight of those shipments.

Revenue per hundredweight is a commonly-used indicator of pricing trends, but this metric can be influenced by many other factors, such as changes in fuel surcharges, weight per shipment, length of haul and the mix of our freight. As a result, changes in revenue per hundredweight do not necessarily indicate actual changes in underlying base rates.

- *Weight Per Shipment* – Fluctuations in weight per shipment can indicate changes in the class, or mix, of freight we receive from our customers, as well as changes in the number of units included in a shipment. Generally, increases in weight per shipment indicate higher demand for our customers' products and overall increased economic activity. Changes in weight per shipment generally have an inverse effect on our revenue per hundredweight, as an increase in weight per shipment will typically cause a decrease in revenue per hundredweight.
- *Average Length of Haul* – We consider lengths of haul less than 500 miles to be regional traffic, lengths of haul between 500 miles and 1,000 miles to be inter-regional traffic, and lengths of haul in excess of 1,000 miles to be national traffic. By analyzing this metric, we can determine the success and growth potential of our service products in these markets. Changes in length of haul generally have a direct effect on our revenue per hundredweight, as an increase in length of haul will typically cause an increase in revenue per hundredweight.

Our primary revenue focus is to increase our "density," our shipment and tonnage growth within our existing infrastructure, which allows us to maximize our asset utilization and labor productivity. We measure density over many different functional areas of our operations including revenue per service center, linehaul load factor, pickup and delivery ("P&D") stops per hour, P&D shipments per hour, platform pounds handled per hour and platform shipments per hour. In addition to our focus on density, it is critical for us to obtain an appropriate yield on the shipments we handle. We manage our yields by focusing on individual account profitability. We believe yield management and improvements in density are key components in our ability to produce profitable growth.

Our primary cost elements are direct wages and benefits associated with the movement of freight; fuel and equipment repair expenses; and depreciation of our equipment fleet and service center facilities. We gauge our overall success in managing these costs by monitoring our operating ratio, a measure of profitability calculated by dividing total operating expenses by revenue, which also allows industry-wide comparisons with our competition.

We continually upgrade our technological capabilities to improve our customer service and lower our operating costs. Our technology provides our customers with visibility of their shipments throughout our network, increases the productivity of our workforce and provides key metrics from which we can monitor our processes.

Results of Operations

The following table sets forth, for the years indicated, expenses and other items as a percentage of revenue from operations:

	2012	2011	2010
Revenue from operations	100.0%	100.0%	100.0%
Operating expenses:			
Salaries, wages and benefits	50.5	50.8	54.6
Operating supplies and expenses	17.9	18.9	16.5
General supplies and expenses	2.8	2.6	2.8
Operating taxes and licenses	3.2	3.4	3.8
Insurance and claims	1.4	1.5	1.7
Communication and utilities	1.0	1.0	1.0
Depreciation and amortization	5.3	4.8	5.4
Purchased transportation	3.3	3.4	3.4
Building and office equipment rents	0.6	0.7	1.0
Miscellaneous expenses, net	0.5	0.5	0.5
Total operating expenses	86.5	87.6	90.7
Operating income	13.5	12.4	9.3
Interest expense, net ⁽¹⁾	0.6	0.7	0.8
Other expense, net	—	—	0.1
Income before income taxes	12.9	11.7	8.4
Provision for income taxes	4.9	4.3	3.3
Net income	8.0%	7.4%	5.1%

(1) For the purpose of this table, interest expense is presented net of interest income.

2012 Compared to 2011

Key financial and operating metrics for 2012 and 2011 are presented below:

	2012	2011	Change	% Change
Work days	254	254	—	—
Revenue (<i>in thousands</i>)	\$ 2,110,483	\$ 1,882,541	\$ 227,942	12.1
Operating ratio	86.5%	87.6%	(1.1)%	(1.3)
Net income (<i>in thousands</i>)	\$ 169,452	\$ 139,470	\$ 29,982	21.5
Diluted earnings per share	\$ 1.97	\$ 1.63	\$ 0.34	20.9
Total tons (<i>in thousands</i>)	6,875	6,397	478	7.5
Total shipments (<i>in thousands</i>)	7,765	7,256	509	7.0
Weight per shipment (<i>lbs.</i>)	1,771	1,763	8	0.5
Revenue per hundredweight	\$ 15.35	\$ 14.72	\$ 0.63	4.3
Revenue per shipment	\$ 271.82	\$ 259.50	\$ 12.32	4.7
Average length of haul (<i>miles</i>)	941	952	(11)	(1.2)

Our 2012 financial results were driven by strong growth in our revenue, which exceeded \$2.0 billion for the first time in our Company's history. In addition to our Company record for annual revenue, we also achieved Company records for our annual operating ratio and earnings per diluted share. We experienced strong growth in both tonnage and revenue per hundredweight, while also improving the efficiency of our operations, all of which led to margin improvement over the previous year. As a result, our operating ratio improved to 86.5% and net income increased 21.5% to \$169.5 million for 2012.

We believe our success in 2012 was primarily the result of our ability to win market share by providing shippers with a value proposition that consists of providing "best-in-class" on-time and claims-free service at a fair and equitable price. Our commitment to this value proposition should allow us to continue to increase our tonnage and market share.

Revenue

Our revenue growth during 2012 of 12.1% was driven by increases in tonnage and pricing. Tonnage increased 7.5% primarily due to a 7.0% increase in shipments and a 0.5% increase in weight per shipment for the periods compared. We believe the increase in shipments during the year was primarily due to increased market share, as our growth exceeded reported industry levels.

Revenue per hundredweight increased 4.3% to \$15.35 in 2012. This increase reflects our disciplined yield management process as well as an improved pricing environment. Revenue per hundredweight is a good indicator of pricing trends, but this metric is influenced by many other factors, such as changes in fuel surcharges, weight per shipment, length of haul and mix of freight; therefore, changes in revenue per hundredweight do not necessarily indicate actual changes in underlying rates. Our revenue per hundredweight, excluding fuel surcharges, increased 3.9% in 2012 despite the negative influence of the increase in weight per shipment and decrease in length of haul.

Fuel surcharge revenue increased to 16.7% of revenue in 2012 from 16.4% in 2011, primarily due to a slight increase in the average price per gallon for diesel fuel. Most of our tariffs and contracts provide for a fuel surcharge, which is recorded as additional revenue, as diesel fuel prices increase above stated levels. These levels are generally indexed to the DOE's published fuel prices that reset each week. The fuel surcharge is one of many components included in the overall negotiated price for our transportation services with our customers, although it is generally considered to be a measure of the increase in cost of all petroleum products we use. We regularly monitor the components of our pricing, including base freight rates and fuel surcharges. We also address any individual account profitability issues with our customers as part of our effort to minimize the negative impact on our profitability that would likely result from a rapid and significant change in any of our operating expenses.

Operating Costs and Other Expenses

Salaries, wages and benefits increased \$110.5 million, or 11.6% in 2012 due to a \$72.8 million increase in the costs for salaries and wages and a \$37.7 million increase in benefit costs. The increase in the costs for our salaries and wages, excluding benefits, was due primarily to a 6.9% increase in average full-time employees over 2011 and the impact of wage increases provided to employees in September 2011 and 2012. The increase in our headcount was necessary to ensure adequate labor capacity for the increase in shipments during 2012 as well as for projected growth. As a result, our direct labor costs for drivers, platform employees and fleet technicians increased \$55.2 million, or 10.8% in 2012 as compared to 2011. Although these costs increased during 2012, our salaries and wages as a percent of revenue improved to 37.8% from 38.5% in 2011 as a result of the increased density and efficiency in our operations. Our platform pounds handled per hour, P&D stops per hour and P&D shipments per hour improved 4.0%, 0.7% and 0.5%, respectively, over the prior-year period.

Employee benefit costs increased \$37.7 million primarily due to an increase in the number of full-time employees eligible for benefits, an increase in paid time off for employees and an increase in the cost per employee for our group health and dental plans. As a percentage of salaries and wages, employee benefit costs increased slightly to 33.7% in 2012 from 31.9% in 2011.

Operating supplies and expenses increased \$23.3 million in 2012 primarily due to the increases in the costs of diesel fuel, excluding fuel taxes, which represents the largest component of operating supplies and expenses. Diesel fuel costs can vary based on both consumption and average price per gallon, both of which increased over 2011. Gallons consumed and average price per gallon increased 5.1% and 2.4%, respectively, in 2012 as compared to 2011. Although we saw increases in these costs, operating supplies and expenses decreased as a percent of revenue to 17.9% in 2012 from 18.9% in 2011. We attribute this improvement primarily to certain operational initiatives and the increased use of newer, more fuel-efficient equipment during 2012. We do not use diesel fuel hedging instruments and are therefore subject to market price fluctuations.

Depreciation and amortization expense increased to 5.3% of revenue in 2012 as compared to 4.8% in 2011. This increase was primarily due to the increase in our capital expenditure program for 2012, which included a significant increase in the number of tractors and trailers purchased. In addition, our unit costs for tractors have increased significantly, due primarily to the impact of increasingly stringent emission standard requirements. Since 2002, the average cost of a new tractor in our fleet has increased approximately \$45,000, or 85%. Although our capital expenditure plan for 2013 is projected to be lower than 2012, we expect our continued growth and investments to increase depreciation costs in future periods.

Our effective tax rate for 2012 was 38.0% as compared to 36.6% in 2011. Our effective tax rate in 2011 was favorably impacted by tax credits related to our investment in alternative energy-producing assets and alternative fuel tax credits for the use of propane in our operations. These alternative fuel tax credits expired on December 31, 2011; however, Congress retroactively reinstated these credits for 2012 and extended the credits through December 31, 2013 by passing the American Taxpayer Relief Act of 2012 on January 1, 2013. The impact of the retroactive application will be recorded as a favorable discrete tax benefit during the first quarter of 2013.

2011 Compared to 2010

Key financial and operating metrics for 2011 and 2010 are presented below:

	2011	2010	Change	% Change
Work days	254	253	1	0.4
Revenue (<i>in thousands</i>)	\$ 1,882,541	\$ 1,480,998	\$ 401,543	27.1
Operating ratio	87.6%	90.7%	(3.1)%	(3.4)
Net income (<i>in thousands</i>)	\$ 139,470	\$ 75,651	\$ 63,819	84.4
Diluted earnings per share	\$ 1.63	\$ 0.90	\$ 0.73	81.1
Total tons (<i>in thousands</i>)	6,397	5,656	741	13.1
Total shipments (<i>in thousands</i>)	7,256	6,327	929	14.7
Weight per shipment (<i>lbs.</i>)	1,763	1,788	(25)	(1.4)
Revenue per hundredweight	\$ 14.72	\$ 13.09	\$ 1.63	12.5
Revenue per shipment	\$ 259.50	\$ 234.09	\$ 25.41	10.9
Average length of haul (<i>miles</i>)	952	948	4	0.4

We experienced strong growth in both tonnage and revenue per hundredweight, and we improved our productivity, all of which led to significant margin improvement during 2011. Tonnage growth in 2011 was primarily the result of our ability to

win market share as well as a slight improvement in the overall U.S. economy. We believe our consistent strategy of providing “best-in-class” on-time and claims-free service at a fair and equitable price resonates with shippers and will continue to help us win market share and fuel our growth. Our ability to win market share is supported by our belief that shippers are making decisions based more on the overall value of the service they receive rather than focusing simply on prices. This change in philosophy occurred as many of our competitors implemented significant rate increases in 2011 and 2010. While we implemented a modest rate increase in 2011, we did not believe we had the headwinds that many of our competitors faced in making pricing decisions in 2012. As a result, we believe the quality of our service and the consistency of our pricing is a winning strategy that will continue to provide opportunities for us to increase tonnage and market share in 2012.

The increase in revenue during 2011, as well as productivity improvements, enabled us to leverage our fixed cost network and generate significant improvement in our operating results. Our net income increased in 2011 by \$63.8 million, or 84.4%, to \$139.5 million and our operating ratio decreased by 310 basis points to 87.6%.

Revenue

The 27.1% increase in revenue during 2011 was the result of increases in both tonnage and revenue per hundredweight. Tonnage increased 13.1% due to a 14.7% increase in shipments that was partially offset by a 1.4% decrease in weight per shipment. While a decrease in weight per shipment has historically been an indicator of weakness in the economy, we believe the decrease we experienced in 2011 was due to a decline in the number of heavier non-traditional LTL shipments, such as full-container load and truckload shipments, as a percent of our total shipments.

Revenue per hundredweight increased 12.5% to \$14.72 in 2011. This change reflects an improved LTL pricing environment that supported our rate increases, as well as an increase in fuel surcharges. Our fuel surcharges are designed to offset fluctuations in the cost of petroleum-based products and are one of many components included in the overall price for our services. Revenue per hundredweight is a good indicator of pricing trends, but this metric is influenced by many other factors, such as changes in fuel surcharges, weight per shipment, length of haul and mix of freight; therefore, changes in revenue per hundredweight do not necessarily indicate actual changes in underlying rates. Our revenue per hundredweight, excluding fuel surcharges, increased 7.1% in 2011 but was positively influenced by the decrease in weight per shipment and an increase in length of haul.

Fuel surcharge revenue increased to 16.4% of revenue from 12.3% in 2010 due to the increased price of diesel fuel during 2011. Most of our tariffs and contracts provide for a fuel surcharge, which is recorded as additional revenue, as diesel fuel prices increase above stated levels. These levels are generally indexed to the DOE’s published fuel prices that reset each week. The fuel surcharge is one of many components included in the overall negotiated price for our transportation services with our customers, although it is generally considered to be a measure of the increase in cost of all petroleum products we use. We regularly monitor the components of our pricing, including base freight rates and fuel surcharges. We also address any individual account profitability issues with our customers as part of our effort to minimize the negative impact on our profitability that would likely result from a rapid and significant change in any of our operating expenses.

Operating Costs and Other Expenses

Salaries, wages and benefits increased \$147.3 million or 18.2% in 2011, which compares favorably with our revenue growth of 27.1%. As a result, our salaries, wages and benefits improved to 50.8% of revenue from 54.6% in 2010. Salaries and wages, excluding benefits, increased \$109.9 million due to a 7.6% increase in the total number of full-time employees and the impact from salary and wage increases provided to our employees in September 2011 and 2010. In addition, there was an increase in performance-based compensation due to the improvement in our financial and operational results. These increases were partially offset by the improved productivity of our linehaul, P&D and platform operations that resulted from increased density and a continued focus on efficiency. Our linehaul laden load average, P&D shipments per hour and platform pounds handled per hour improved 0.3%, 1.1% and 0.1%, respectively.

Employee benefit costs increased \$37.3 million primarily due to an increase in the number of full-time employees, increased costs related to our group health plan and higher payroll-related taxes. As a percentage of salaries and wages, employee benefit costs increased slightly to 31.9% in 2011 from 31.5% in 2010. Our group health plan requires a 90-day waiting period before newly hired employees are eligible to enroll. A significant number of employees were hired in the second half of 2010, and as a result, our group health costs increased as these new employees began to enroll in our plan in 2011. In addition, our group health costs increased due to changes required by the 2010 Patient Protection and Affordable Care Act, which required us to provide dependant coverage until the age of 26.

Operating supplies and expenses increased to 18.9% of revenue in 2011 from 16.5% in 2010. This increase is primarily due to the increase in diesel fuel costs, excluding fuel taxes, which is the largest component of operating supplies and expenses. These costs increased 52.8% during the year as a result of the combined effect of a 29.7% increase in our average price per gallon and a 12.7% increase in gallons consumed. The increase in fuel consumption is primarily due to a 14.7% year-over-year increase in overall miles driven that was partially offset by an improvement in our average miles per gallon. Our increased fuel consumption also resulted in an increase in our fuel tax expenses and was the principal driver of the \$7.9 million increase in "Operating taxes and licenses." We do not use diesel fuel hedging instruments and are therefore subject to market price fluctuations.

Depreciation and amortization expense decreased to 4.8% of revenue in 2011 as compared to 5.4% in 2010. Although our capital expenditure requirements increased in 2011, we were able to offset the cost of these additions by utilizing the available capacity of our fleet and service center network to create operating leverage on the 13.1% increase in tonnage. Our capital expenditure plan for 2012 is projected to be higher than 2011 and, as a result, our depreciation costs will likely increase in future periods.

We purchase linehaul transportation and P&D services from other motor carriers and railroads. We also utilize independent contractors for our container operations. We utilize these services when it is economically beneficial or when there are imbalances of freight flow within our service center network. Purchased transportation expense remained consistent at 3.4% of revenue in 2011 and 2010. As it is typically more efficient and profitable for us to utilize our own personnel and equipment, we expect to continue to focus on balancing our internal resources with freight demand in an effort to reduce our use of purchased transportation in future periods.

Our effective tax rate for 2011 was 36.6% as compared to 39.2% in 2010. Our effective tax rates in 2011 and 2010 were favorably impacted by alternative fuel tax credits for the use of propane in our operations. These fuel tax credits were originally scheduled to expire on December 31, 2009; however, they were extended to December 31, 2011 with the passage of the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010. Our 2011 rate also included the favorable impact of tax credits related to our investment in alternative energy-producing assets.

Liquidity and Capital Resources

A summary of our cash flows is presented below:

<u>(In thousands)</u>	<u>2012</u>	<u>2011</u>	<u>2010</u>
Cash and cash equivalents at beginning of year	\$ 75,850	\$ 5,450	\$ 4,171
Cash flows provided by (used in):			
Operating activities	328,056	277,934	140,522
Investing activities	(361,175)	(245,332)	(103,743)
Financing activities	(29,874)	37,798	(35,500)
(Decrease) increase in cash and cash equivalents	(62,993)	70,400	1,279
Cash and cash equivalents at end of year	\$ 12,857	\$ 75,850	\$ 5,450

The changes in our cash flows provided by operating activities for the periods presented above are due primarily to the significant improvement in our net income, which increased \$30.0 million in 2012 and \$63.8 million in 2011 over the comparable periods in 2011 and 2010, respectively. This increase is more fully described above in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations – *Results of Operations*." Depreciation and amortization expenses also increased \$19.9 million in 2012 and \$10.5 million in 2011 over the comparable periods of 2011 and 2010, respectively, which is primarily due to the ongoing execution of our capital expenditure program and more fully described in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations – *Capital Expenditures*."

Changes in cash flows used in investing activities are primarily due to changes in our capital expenditures over the periods compared. The changes in our capital expenditure program are more fully described in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations – *Capital Expenditures*."

Changes in cash flows used in or provided by financing activities consist of fluctuations in our senior unsecured revolving line of credit, scheduled principal payments under our long-term debt agreements, and debt and equity issuances during 2011. In 2011, we completed a \$95.0 million private placement of senior notes, and we received net proceeds of \$48.4

million resulting from the issuance of our common stock, both of which are discussed in more detail below. A portion of the proceeds from these transactions was used to satisfy the outstanding balance on our senior unsecured revolving line of credit.

We have three primary sources of available liquidity: cash and cash equivalents, cash flows from operations and available borrowings under our senior unsecured revolving credit agreement, which is described below. We believe we also have sufficient access to debt and equity markets to provide other sources of liquidity, if needed.

On January 3, 2011, we entered into a Note Purchase Agreement pursuant to which we issued \$95.0 million of privately-placed senior notes. We entered into this Note Purchase Agreement to fund planned capital expenditures and for general corporate purposes. We used a portion of the proceeds to refinance existing indebtedness, including paying down the outstanding balance on our senior unsecured revolving credit agreement.

Pursuant to an automatic shelf registration statement previously filed with the Securities and Exchange Commission (the "SEC"), we filed a prospectus supplement and entered into an At-The-Market Equity Offering Sales Agreement on February 2, 2011 with Stifel, Nicolaus & Company, Incorporated ("Stifel Nicolaus Weisel"), under which we had the ability to issue and sell, from time to time over a 12-month period through or to Stifel Nicolaus Weisel, shares of our common stock having an aggregate offering price of up to \$100.0 million (the "ATM program"). From February 2, 2011 through December 31, 2011, we issued 2,274,568 shares of common stock pursuant to the ATM program at an average price of \$21.79 per share, after adjusting for a three-for-two stock split effected on September 7, 2012. We received aggregate gross proceeds of \$49.6 million and aggregate net proceeds of \$48.4 million, after deducting commissions and other transaction costs of \$1.2 million. There were no subsequent issuances pursuant to the ATM program through February 2, 2012, which was the date on which the ATM program expired. Our automatic shelf registration statement that provided us with the opportunity to offer and sell shares of common stock on a delayed or continuous basis at indeterminate prices expired in the fourth quarter of 2012.

Capital Expenditures

The table below sets forth our net capital expenditures for property and equipment, including those obtained through capital leases, for the years ended December 31, 2012, 2011 and 2010:

<i>(In thousands)</i>	Year Ended December 31,		
	2012	2011	2010
Land and structures	\$ 143,701	\$ 73,463	\$ 49,867
Tractors	113,257	69,837	35,777
Trailers	83,405	62,326	5,020
Technology	13,950	24,767	11,866
Other	19,974	28,945	5,000
Less: Proceeds from sales	(12,018)	(5,436)	(2,604)
Total	\$ 362,269	\$ 253,902	\$ 104,926

Our capital expenditure requirements are generally based upon the projected increase in the number and size of our service center facilities to support our plan for long-term growth, our planned tractor and trailer replacement cycle and anticipated tonnage growth. Expenditures for land and structures increased in 2012 as we expanded the capacity of our service center network, which included the expansion of two of our major breakbulk facilities. Our capital expenditures for tractors and trailers increased significantly in 2012 and 2011 to support our projected tonnage growth as well as to replace equipment being retired through our normal replacement cycle. In 2010, we limited our purchases of these assets as we had sufficient capacity to meet demand.

We currently estimate capital expenditures, net of anticipated proceeds from sales, will be approximately \$270.0 million for the year ending December 31, 2013. Approximately \$95.0 million is allocated for the purchase of service center facilities, construction of new service center facilities or expansion of existing service center facilities, subject to the availability of suitable real estate and the timing of construction projects; approximately \$150.0 million is allocated for the purchase of tractors, trailers and other equipment; and approximately \$25.0 million is allocated for investments in technology and other assets. We expect to fund these capital expenditures primarily through cash flows from operations, our existing cash and cash equivalents and the use of our senior unsecured revolving credit facility, if needed. We believe our current sources of liquidity will be sufficient to satisfy our expected capital expenditures.

We anticipate that there will be additional environmental regulations and legislation resulting from the increased regulatory focus on climate change and greenhouse gas emissions in the United States. At this time, we cannot predict the

requirements of any future regulations. However, any limitations on the emission of greenhouse gases or other environmental legislation could increase our future capital expenditures and have an adverse impact on our financial condition, results of operations and liquidity.

Financing Agreements

We have a five-year, \$200.0 million senior unsecured revolving credit facility pursuant to the terms of a second amended and restated credit agreement dated August 10, 2011 (the "Credit Agreement"), with Wells Fargo Bank, National Association ("Wells Fargo") serving as administrative agent for the lenders. Of the \$200.0 million line of credit commitments, \$150.0 million may be used for letters of credit and \$20.0 million may be used for borrowings under the Wells Fargo Sweep Plus Loan Program. This sweep program is a daily cash management tool that automatically initiates borrowings to cover overnight cash requirements up to an aggregate of \$20.0 million. In addition, we have the right to request an increase in the line of credit commitments up to a total of \$300.0 million in minimum increments of \$25.0 million.

At our option, revolving loans under the facility bear interest at either: (a) the Applicable Margin Percentage for Base Rate Loans plus the higher of Wells Fargo's prime rate, the federal funds rate plus 0.5% per annum, or the one month LIBOR Rate plus 1.0% per annum; (b) the LIBOR Rate plus the Applicable Margin Percentage for LIBOR Loans; or (c) the LIBOR Market Index Rate ("LIBOR Index Rate") plus the Applicable Margin Percentage for LIBOR Market Index Loans. The Applicable Margin Percentage is determined by a pricing grid in the Credit Agreement and ranges from 1.0% to 1.875%. The Applicable Margin Percentage was 1.125% at December 31, 2012 and 2011, respectively, and ranged from 1.0% to 1.125% during 2012. Revolving loans under the sweep program bear interest at the LIBOR Index Rate.

The Credit Agreement contains customary covenants, including financial covenants that require us to observe a maximum ratio of debt to total capital and a minimum fixed charge coverage ratio. Any future wholly-owned subsidiaries of Old Dominion would be required to guarantee payment of all of our obligations under the facility. The amounts outstanding and remaining borrowing capacity under our revolving credit facilities are presented below:

<i>(In thousands)</i>	December 31,	
	2012	2011
Facility limit	\$ 200,000	\$ 200,000
Line of credit borrowings	(10,000)	—
Outstanding letters of credit	(52,423)	(49,878)
Total borrowing capacity	\$ 137,577	\$ 150,122

Commitment fees ranging from 0.175% to 0.30% are charged quarterly in arrears on the aggregate unutilized portion of the Credit Agreement. Letter of credit fees equal to the applicable margin for Adjusted LIBOR Rate loans are charged quarterly in arrears on the daily average aggregate stated amount of all letters of credit outstanding during the quarter. The commitment fees ranged from 0.175% to 0.20% and letter of credit fees ranged from 1.0% to 1.125% during 2012. In addition, a facing fee at an annual rate of 0.125% is charged quarterly in arrears on the daily average aggregate stated amount of all letters of credit outstanding during such quarter.

We have three outstanding unsecured senior note agreements with an aggregate amount outstanding of \$227.1 million at December 31, 2012. These notes call for periodic principal payments with maturities that range from 2015 to 2021, of which \$35.7 million is due in the next twelve months. Interest rates on these notes are fixed and range from 4.00% to 5.85%. The effective average interest rate on our outstanding senior note agreements was 5.07% and 5.17% at December 31, 2012 and 2011, respectively.

With the exception of borrowings pursuant to the Credit Agreement, interest rates are fixed on all of our debt instruments. Therefore, short-term exposure to fluctuations in interest rates is limited to our line of credit facility. We do not currently use interest rate derivative instruments to manage exposure to interest rate changes.

Our Credit Agreement limits the amount of dividends that could be paid to shareholders to the greater of (i) \$20.0 million, (ii) the amount of dividends paid in the immediately preceding fiscal year, or (iii) an amount equal to 25% of net income from the immediately preceding fiscal year. We did not declare or pay a dividend on our common stock in 2012 or 2011, and we have no plans to declare or pay a dividend in 2013.

A significant decrease in demand for our services could limit our ability to generate cash flow and affect profitability. Most of our debt agreements have covenants that require stated levels of financial performance, which if not achieved could

cause acceleration of the payment schedules. As of December 31, 2012, we were in compliance with these covenants. We do not anticipate a significant decline in business levels or financial performance that would cause us to violate any such covenants in the future, and we believe the combination of our existing Credit Agreement along with our additional borrowing capacity will be sufficient to meet foreseeable seasonal and long-term capital needs.

Common Stock Split

On August 13, 2012, we announced a three-for-two common stock split for shareholders of record as of the close of business on the record date, August 24, 2012. On September 7, 2012, those shareholders received one additional share of common stock for every two shares owned. In lieu of fractional shares, shareholders received a cash payment based on the average of the high and low sales prices of our common stock on the record date.

On August 2, 2010, we announced a three-for-two common stock split for shareholders of record as of the close of business on the record date, August 9, 2010. On August 23, 2010, those shareholders received one additional share of common stock for every two shares owned. In lieu of fractional shares, shareholders received a cash payment based on the average of the high and low sales prices of the common stock on the record date.

All references in this report to shares outstanding, weighted average shares outstanding and earnings per share amounts have been restated retroactively to reflect these stock splits.

Contractual Obligations

The following table summarizes our significant contractual obligations as of December 31, 2012:

Contractual Obligations ⁽¹⁾ <i>(In thousands)</i>	Payments due by period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Long-term debt obligations, exclusive of interest	\$ 237,143	\$ 35,714	\$ 71,429	\$ 35,000	\$ 95,000
Capital lease obligations, exclusive of interest	3,264	3,264	—	—	—
Operating lease obligations	65,010	15,823	19,543	10,508	19,136
Purchase obligations	20,516	20,516	—	—	—
Total	\$ 325,933	\$ 75,317	\$ 90,972	\$ 45,508	\$ 114,136

(1) Contractual obligations include long-term debt consisting of senior notes totaling \$227.1 million and \$10.0 million outstanding on our Credit Agreement; capital lease obligations for computer equipment; operating leases consisting primarily of real estate leases; and purchase obligations relating to non-cancellable purchase orders for equipment scheduled for delivery in 2013. Please refer to the information regarding interest rates and the balance on our revolving credit facility in this section above and also in Note 2 to the Financial Statements included in Item 8 of this report.

Critical Accounting Policies

In preparing our financial statements, we apply the following critical accounting policies that we believe affect our judgments and estimates of amounts recorded in certain assets, liabilities, revenue and expenses. These critical accounting policies are further described in Note 1 of the Notes to the Financial Statements included in Item 8 of this report.

Revenue Recognition

We recognize revenue based upon when our transportation services have been completed in accordance with the bill of lading contract, our general tariff provisions or contractual agreements with our customers. Generally, this occurs when we complete the delivery of a shipment. For transportation services not completed at the end of a reporting period, we use a percentage of completion method to allocate the appropriate revenue to each separate reporting period. Under this method, we develop a factor for each uncompleted shipment by dividing the actual number of days in transit at the end of a reporting period by that shipment's standard delivery time schedule. This factor is applied to the total revenue for that shipment and revenue is allocated between reporting periods accordingly.

Allowances for Uncollectible Accounts and Revenue Adjustments

We maintain an allowance for uncollectible accounts for estimated losses resulting from the inability of our customers to make required payments. We estimate this allowance by analyzing the aging of our customer receivables, our historical loss experience and other trends and factors affecting the credit risk of our customers. We determine customer receivables to be past due when payment has not been received by the invoice due date. Write-offs occur when we determine an account to be uncollectible and could differ from our allowance estimate as a result of factors such as changes in the overall economic environment or risks surrounding our customers. Additional allowances may be required if the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments. We periodically review the underlying assumptions in our estimate of the allowance for uncollectible accounts to ensure that the allowance reflects the most recent trends and factors.

We also maintain an allowance for estimated revenue adjustments resulting from future billing corrections, customer allowances, money-back service guarantees and other miscellaneous revenue adjustments. These revenue adjustments are recorded in our revenue from operations. We use historical experience, trends and current information to update and evaluate these estimates.

Claims and Insurance Accruals

Claims and insurance accruals reflect the estimated cost of claims for cargo loss and damage, BIPD, workers' compensation, long-term disability, group health and dental not covered by insurance. The related costs are charged to insurance and claims expense except for workers' compensation, long-term disability, group health and dental, which are charged to employee benefits expense.

Insurers providing excess coverage above retention levels adjust their premiums to cover insured losses and for other market factors. As a result, we periodically evaluate our self-insured retention levels to determine the most cost-efficient balance between our retention exposure and excess coverage.

In establishing accruals for claims and insurance expenses, we evaluate and monitor each claim individually, and we use factors such as historical claims development experience, known trends and third-party estimates to determine the appropriate reserves for potential liability. We believe the assumptions and methods used to estimate these liabilities are reasonable; however, any changes in the severity of previously-reported claims, significant changes in the medical costs and regulatory changes affecting the administration of our plans could significantly impact the determination of appropriate reserves in future periods.

Property and Equipment

Property and equipment are recorded at cost and depreciated on a straight-line basis over their estimated economic lives. We use historical experience, certain assumptions and estimates in determining the economic life of each asset. Periodically, we review property and equipment for impairment due to changes in operational and market conditions, and we adjust the carrying value and economic life of any impaired asset as appropriate.

Effective January 1, 2010, estimated economic lives for structures are 7 to 30 years; revenue equipment is 4 to 15 years; other equipment is 2 to 20 years; and leasehold improvements are the lesser of the economic life of the leasehold improvement or the remaining life of the lease. The use of different assumptions, estimates or significant changes in the resale market for our equipment could result in material changes in the carrying value and related depreciation of our assets.

During the first quarter of 2010, we completed an evaluation of the estimated useful lives and salvage values for our equipment and determined that the actual period of service of certain revenue equipment exceeded that of our previously estimated useful lives. As a result, we extended the estimated useful lives of most of our tractors to 9 years from 7 years and extended the estimated useful lives of our trailers to 15 years from 12 years. In addition, we reduced the estimated salvage values associated with this equipment to more accurately reflect the value we believe such equipment will have at the end of its respective useful life. We made similar changes to the estimated useful lives and salvage values for certain of our other equipment but the results of these changes had less of an impact on our future depreciation expense. As a result of the impact on depreciation from these changes that were effective January 1, 2010, income from continuing operations and net income in 2010 increased by approximately \$12.7 million and \$7.7 million, respectively.

Inflation

Most of our expenses are affected by inflation, which typically results in increased operating costs. In response to fluctuations in the cost of petroleum products, particularly diesel fuel, we generally include a fuel surcharge in our tariffs and contractual agreements. The fuel surcharge is designed to offset the cost of diesel fuel above a base price and increases as diesel fuel prices escalate over the base, which is generally indexed to the DOE's published fuel prices that reset each week. Volatility in the price of diesel fuel, independent of inflation, has impacted our business, as described in this report. However, we do not believe inflation has had a material effect on our results of operations for each of the past three years.

Related Person Transactions

Family Relationships

Each of Earl E. Congdon, John R. Congdon, David S. Congdon and John R. Congdon, Jr. are related to one another and served in various executive management positions and/or on our Board of Directors during 2012. We have entered into amended and restated employment agreements with Earl E. Congdon and David S. Congdon, which are incorporated by reference as exhibits to our Annual Report on Form 10-K. We regularly disclose the amount of compensation that we pay to these individuals, as well as any of their family members employed by us and whose compensation from time to time may require disclosure, in the proxy statement for our Annual Meeting of Shareholders.

During 2012, John R. Congdon resigned from his position as Senior Vice President but continues to be employed by the Company. In connection with his resignation as a Senior Vice President, the Board of Directors and Mr. Congdon agreed to terminate the amended and restated employment agreement between the Company and John R. Congdon.

Transactions with Old Dominion Truck Leasing, Inc.

Old Dominion Truck Leasing, Inc. ("Leasing") is a North Carolina corporation whose voting stock is owned by an Earl E. Congdon Revocable Trust; the John R. Congdon Revocable Trust; and members of Earl E. Congdon's and John R. Congdon's families. Leasing is primarily engaged in the business of purchasing and leasing tractors, trailers and other vehicles. John R. Congdon is Chairman of the Board of Leasing, and Earl E. Congdon is Vice Chairman of the Board of Leasing. Since 1986, we have combined our requirements with Leasing for the purchase of tractors, trailers, equipment, parts, tires and fuel. We believe that the termination of this arrangement would not have a material adverse impact on our financial results.

We purchased \$239,000, \$278,000 and \$242,000 of maintenance and other services from Leasing in 2012, 2011 and 2010, respectively. We believe that the prices we pay for such services are no more than what would be charged by unaffiliated third parties for the same quality of work, and we intend to continue to purchase maintenance and other services from Leasing, provided that Leasing's prices continue to be favorable to us.

We also paid Leasing \$86,000 for leased equipment in 2010. These payments were for long-term leases for tractors used in our linehaul operations. We received no commission or other financial benefit from Leasing or any other party in connection with these lease transactions. We did not lease any equipment from Leasing in 2012 or 2011.

We charged Leasing \$18,000, \$18,000 and \$17,000 for the rental of property in 2012, 2011 and 2010, respectively. No other services were provided to Leasing for the years ended December 31, 2012, 2011 and 2010.

Split-Dollar Life Insurance Policies

We are the owner of two split-dollar life insurance contracts insuring the life of John R. Congdon. The net cash surrender value for these policies was \$6.8 million and \$6.6 million at December 31, 2012 and 2011, respectively, and is included on our Balance Sheets under the caption "Other assets." At December 31, 2012, these policies provided for an aggregate of \$8.9 million in net death benefits due to the Company, of which we have endorsed \$2.0 million to Mr. Congdon's children.

Audit Committee Approval

The Audit Committee of our Board of Directors reviewed and approved all of the related person transactions described above in accordance with our Related Person Transactions Policy.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk represents the risk of loss that may impact our financial position, results of operations and cash flows due to adverse changes in financial market prices and rates.

We are exposed to interest rate risk directly related to loans, if any, under our Credit Agreement, which have variable interest rates. A 100 basis point increase in the average interest rate on this agreement would have no material effect on our operating results. We have established policies and procedures to manage exposure to market risks and use major institutions that we believe are creditworthy to minimize credit risk.

We are exposed to market risk for equity investments relating to Company-owned life insurance contracts on certain employees. At December 31, 2012, the cash value for variable life insurance contracts was \$22.3 million of the \$33.1 million of aggregate cash values for all life insurance contracts included on our Balance Sheets. Variable life insurance contracts expose us to fluctuations in equity markets; however, we utilize a third-party to manage these assets and minimize that exposure. A 10% change in market value in those investments would have a \$2.2 million impact on our operating income.

We are exposed to market risk for awards granted under the Old Dominion Freight Line, Inc. Phantom Stock Plan and the Old Dominion Freight Line, Inc. Director Phantom Stock Plan. The liability for the unsettled outstanding awards is remeasured at the end of each reporting period based on the closing price of our common stock at that date. At December 31, 2012, the total liability for awards granted under the Old Dominion Freight Line, Inc. Phantom Stock Plan and the Old Dominion Freight Line, Inc. Director Phantom Stock Plan totaled \$16.2 million. A 10% change in the price of our common stock at December 31, 2012 would have had a \$1.6 million impact on our operating income in 2012 with respect to these plans.

We are also exposed to commodity price risk related to diesel fuel prices and manage our exposure to that risk primarily through the application of fuel surcharges.

For further discussion related to these risks, see Notes 2 and 8 to the Financial Statements included in Item 8, "Financial Statements and Supplementary Data" and Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations."

OLD DOMINION FREIGHT LINE, INC.
NOTES TO THE FINANCIAL STATEMENTS

Note 1. Significant Accounting Policies

Business

We are a leading, less-than-truckload (“LTL”), union-free motor carrier providing regional, inter-regional and national LTL service and value-added services from a single integrated organization. In addition to our core LTL services, we offer our customers a broad range of value-added services including ground and air expedited transportation, container delivery, truckload brokerage, supply chain consulting, warehousing and consumer household pickup and delivery services. We also offer worldwide freight forwarding services.

We have one operating segment and no single customer exceeds 10% of our revenue.

Basis of Presentation

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Certain amounts in prior years have been reclassified to conform prior years’ financial statements to the current presentation.

Unless the context requires otherwise, references in these Notes to “Old Dominion,” the “Company,” “we,” “us” and “our” refer to Old Dominion Freight Line, Inc.

Revenue and Expense Recognition

We recognize revenue based upon when our transportation services have been completed in accordance with the bill of lading contract, our general tariff provisions or contractual agreements with our customers. Generally, this occurs when we complete the delivery of a shipment. For transportation services not completed at the end of a reporting period, we use a percentage of completion method to allocate the appropriate revenue to each separate reporting period. Under this method, we develop a factor for each uncompleted shipment by dividing the actual number of days in transit at the end of a reporting period by that shipment’s standard delivery time schedule. This factor is applied to the total revenue for that shipment and revenue is allocated between reporting periods accordingly.

Expenses are recognized when incurred.

Allowances for Uncollectible Accounts and Revenue Adjustments

We maintain an allowance for uncollectible accounts for estimated losses resulting from the inability of our customers to make required payments. We estimate this allowance by analyzing the aging of our customer receivables, our historical loss experience and other trends and factors affecting the credit risk of our customers. Write-offs occur when we determine an account to be uncollectible and could differ from our allowance estimate as a result of factors such as changes in the overall economic environment or risks surrounding our customers. Additional allowances may be required if the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments. We periodically review the underlying assumptions in our estimate of the allowance for uncollectible accounts to ensure that the allowance reflects the most recent trends and factors.

We also maintain an allowance for estimated revenue adjustments resulting from future billing corrections, customer allowances, money-back service guarantees and other miscellaneous revenue adjustments. These revenue adjustments are recorded in our revenue from operations. We use historical experience, trends and current information to update and evaluate these estimates.

OLD DOMINION FREIGHT LINE, INC.
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Credit Risk

Financial instruments that potentially subject us to concentrations of credit risk consist principally of customer receivables. We perform initial and ongoing credit evaluations of our customers to minimize credit risk. We generally do not require collateral but may require prepayment of our services under certain circumstances. Credit risk is generally diversified due to the large number of entities comprising our customer base and their dispersion across many different industries and geographic regions.

Cash and Cash Equivalents

We consider cash on hand and deposits in banks along with certificates of deposit and short-term marketable securities with original maturities of three months or less as cash and cash equivalents.

Property and Equipment

Property and equipment are stated at cost. Major additions and improvements are capitalized, while maintenance and repairs that do not improve or extend the lives of the respective assets are charged to expense as incurred. We capitalize the cost of tires mounted on purchased revenue equipment as a part of the total equipment cost. Subsequent replacement tires are expensed at the time those tires are placed in service.

Depreciation of property and equipment is calculated using the straight-line method over the estimated useful lives of the related assets. The following table provides the estimated useful lives by asset type:

Structures	7 to 30 years
Revenue equipment	4 to 15 years
Other equipment	2 to 20 years
Leasehold improvements	Lesser of economic life or life of lease

Depreciation expense, which includes the amortization of capital leases, was \$109.8 million, \$89.9 million and \$79.4 million for 2012, 2011 and 2010, respectively.

During the first quarter of 2010, we completed an evaluation of the estimated useful lives and salvage values for our equipment and determined that the actual period of service of certain revenue equipment exceeded that of our previously estimated useful lives. As a result, we extended the estimated useful lives of most of our tractors to 9 years from 7 years and extended the estimated useful lives of our trailers to 15 years from 12. In addition, we reduced the estimated salvage values associated with this equipment to more accurately reflect the value we believe such equipment will have at the end of its respective useful lives. We made similar changes to the estimated useful lives and salvage values for certain of our other equipment but the results of these changes had less of an impact on our future depreciation expense. As a result of the impact on depreciation from these changes that were effective January 1, 2010, income from continuing operations and net income in 2010 increased by approximately \$12.7 million and \$7.7 million, respectively.

Goodwill and Other Intangible Assets

Intangible assets have been acquired in connection with business combinations and are comprised of goodwill and other intangible assets. Goodwill is calculated as the excess cost over the fair value of assets acquired and is not subject to amortization. We review our goodwill balance annually for impairment, unless circumstances dictate more frequent assessments. During the fourth quarter of 2011, we adopted Accounting Standards Update (“ASU”) 2011-08, *Testing Goodwill for Impairment*, which permits an initial assessment of qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. This initial assessment provides a basis for determining whether it is necessary to perform the two-step goodwill impairment test required by Accounting Standards Codification (“ASC”) Topic 350. In the fourth quarter of 2012, we performed the qualitative assessment of goodwill and determined it was more likely than not that the fair value of our reporting unit would be greater than its carrying amount. Therefore, we determined it was not necessary to perform the two-step goodwill impairment test. Furthermore, there has been no historical impairment of our goodwill.

OLD DOMINION FREIGHT LINE, INC.
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Other intangible assets include the value of acquired customer lists and related non-compete agreements and are amortized on a straight-line basis over their estimated useful lives, none of which exceeds ten years. The gross carrying amount of our other intangible assets totaled \$8.1 million as of December 31, 2012 and 2011. Accumulated amortization for these assets was \$5.7 million and \$4.7 million as of December 31, 2012 and 2011, respectively. The net carrying amounts of our other intangible assets are included in "Other assets" on our Balance Sheets. Amortization expense was \$0.9 million for 2012, 2011 and 2010. Annual amortization expense for the next five years for these intangible assets is estimated to be:

<i>(In thousands)</i>	
2013	\$ 712
2014	\$ 695
2015	\$ 495
2016	\$ 315
2017	\$ 210

Long-Lived Assets

We assess the realizable value of our long-lived assets and evaluate such assets for impairment whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable.

Claims and Insurance Accruals

At December 31, 2012, we maintained a self-insured retention ("SIR") of \$2.75 million per occurrence for bodily injury and property damage ("BIPD") claims; a deductible of \$100,000 per claim for cargo loss and damage; and deductible of \$1.0 million per occurrence for workers' compensation claims. We also had an SIR of \$400,000 per occurrence (with a \$200,000 aggregate over our retention level) for group health claims. We fully self-insured long-term disability claims to a maximum of \$3,000 per month for our salaried and non-salaried employees until April 2, 2010 and July 1, 2011, respectively. We subsequently began to offer elective long-term disability coverage to our employees and, therefore, we have no liability for new long-term disability claims after those dates.

Claims and insurance accruals reflect the estimated cost of claims for cargo loss and damage, BIPD, workers' compensation, long-term disability, group health and group dental not covered by insurance. These accruals include amounts for future claims development and claims incurred but not reported, which are primarily based on historical claims development experience. The related costs for cargo loss and damage and BIPD are charged to insurance and claims expense, while the related costs for workers' compensation, long-term disability, group health and dental are charged to employee benefits expense.

Our liability for claims and insurance totaled \$93.5 million and \$86.0 million at December 31, 2012 and 2011, respectively. The long-term portions of those reserves were \$59.5 million and \$50.1 million for 2012 and 2011, respectively, which were included in "Other non-current liabilities" on our Balance Sheets.

Advertising

The costs of advertising our services are expensed as incurred and are included in "General supplies and expenses" on our Statements of Operations. Advertising costs charged to expense totaled \$11.0 million, \$8.3 million and \$6.3 million for 2012, 2011 and 2010, respectively.

Common Stock Split

On August 13, 2012, we announced a three-for-two common stock split for shareholders of record as of the close of business on the record date, August 24, 2012. On September 7, 2012, those shareholders received one additional share of common stock for every two shares owned. In lieu of fractional shares, shareholders received a cash payment based on the average of the high and low sales prices of our common stock on the record date.

On August 2, 2010, we announced a three-for-two common stock split for shareholders of record as of the close of business on the record date, August 9, 2010. On August 23, 2010, those shareholders received one additional share of common

OLD DOMINION FREIGHT LINE, INC.
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

stock for every two shares owned. In lieu of fractional shares, shareholders received a cash payment based on the average of the high and low sales prices of the common stock on the record date.

All references in this report to shares outstanding, weighted average shares outstanding and earnings per share amounts have been restated retroactively to reflect these stock splits.

Fair Values of Financial Instruments

The carrying values of financial instruments, such as cash and cash equivalents, customer and other receivables and trade payables, approximate their fair value due to the short maturities of these instruments. The carrying value of our long-term debt was \$240.4 million and \$269.2 million at December 31, 2012 and 2011, respectively. The estimated fair value of our long-term debt was \$247.9 million and \$276.6 million at December 31, 2012 and 2011, respectively. The fair value measurement of our senior notes was determined using market interest rates for similar issuances of private debt. Since this methodology is based upon indicative market interest rates, the measurement is categorized as Level 2 under the three-level fair value hierarchy as established by the Financial Accounting Standards Board (the "FASB"). The fair value of our other long-term debt approximates carrying value.

Comprehensive Income

The Company has no components of other comprehensive income. Accordingly, net income equals comprehensive income for all periods presented in this report.

Earnings Per Share

Earnings per common share is computed using the weighted-average number of common shares outstanding during the period. There were no potentially dilutive shares outstanding at the end of each period presented in this report.

Note 2. Long-term Debt

Long-term debt consisted of the following:

<u>(In thousands)</u>	<u>December 31,</u>	
	<u>2012</u>	<u>2011</u>
Senior notes	\$ 227,143	\$ 262,857
Revolving credit facility	10,000	—
Capitalized lease and other obligations	3,264	6,328
Total long-term debt	240,407	269,185
Less: Current maturities	(38,978)	(39,354)
Total maturities due after one year	<u>\$ 201,429</u>	<u>\$ 229,831</u>

We have three outstanding unsecured senior note agreements with an aggregate amount outstanding of \$227.1 million at December 31, 2012. These notes call for periodic principal payments with maturities that range from 2015 to 2021, of which \$35.7 million is due in the next twelve months. Interest rates on these notes are fixed and range from 4.00% to 5.85%. The effective average interest rate on our outstanding senior note agreements was 5.07% and 5.17% at December 31, 2012 and 2011, respectively.

We have a five-year, \$200.0 million senior unsecured revolving credit facility pursuant to the terms of a second amended and restated credit agreement on August 10, 2011 (the "Credit Agreement"), with Wells Fargo Bank, National Association ("Wells Fargo") serving as administrative agent for the lenders. Of the \$200.0 million line of credit commitments, \$150.0 million may be used for letters of credit and \$20.0 million may be used for borrowings under the Wells Fargo Sweep Plus Loan Program. This sweep program is a daily cash management tool that automatically initiates borrowings to cover overnight cash requirements up to an aggregate of \$20.0 million. In addition, we have the right to request an increase in the line of credit commitments up to a total of \$300.0 million in minimum increments of \$25.0 million. At our option, revolving loans under the facility bear interest at either: (a) the Applicable Margin Percentage for Base Rate Loans plus the higher of Wells Fargo's prime rate, the federal funds rate plus 0.5% per annum, or the one month LIBOR Rate plus 1.0% per annum; (b) the LIBOR Rate plus

OLD DOMINION FREIGHT LINE, INC.
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

the Applicable Margin Percentage for LIBOR Loans; or (c) the LIBOR Market Index Rate ("LIBOR Index Rate") plus the Applicable Margin Percentage for LIBOR Market Index Loans. The Applicable Margin Percentage is determined by a pricing grid in the Credit Agreement and ranges from 1.0% to 1.875%. The Applicable Margin Percentage was 1.125% at December 31, 2012 and 2011, respectively, and ranged from 1.0% to 1.125% during 2012. Revolving loans under the sweep program bear interest at the LIBOR Index Rate.

The outstanding balance of borrowings on the line of credit facility was \$10.0 million and zero at December 31, 2012 and 2011, respectively. There were \$52.4 million and \$49.9 million of outstanding letters of credit at December 31, 2012 and 2011, respectively.

Commitment fees ranging from 0.175% to 0.30% are charged quarterly in arrears on the aggregate unutilized portion of the Credit Agreement. Letter of credit fees equal to the applicable margin for Adjusted LIBOR Rate loans are charged quarterly in arrears on the daily average aggregate stated amount of all letters of credit outstanding during the quarter. The commitment fees ranged from 0.175% to 0.20% and letter of credit fees ranged from 1.0% to 1.125% during 2012. In addition, the Company will pay to Wells Fargo as issuer of letters of credit (i) a facing fee with respect to each letter of credit in an amount equal to 0.125% of the daily average aggregate Stated Amount thereof, payable quarterly in arrears and calculated on an actual/360-day basis and (ii) such fees and charges customarily charged in connection with the issuance and administration of such letters of credit. Wells Fargo, as administrative agent, shall also receive an annual administrative fee for providing such services.

Our Credit Agreement limits the amount of dividends that could be paid to shareholders to the greater of (i) \$20.0 million, (ii) the amount of dividends paid in the immediately preceding fiscal year, or (iii) an amount equal to 25% of net income from the immediately preceding fiscal year. We did not declare or pay a dividend on our common stock in 2012 or 2011, and we have no plans to declare or pay a dividend in 2013.

Our three outstanding senior note agreements and the Credit Agreement contain customary covenants, including financial covenants that require us to observe a maximum ratio of debt to total capital and a minimum fixed charge coverage ratio. Any future wholly-owned subsidiaries of the Company would be required to guarantee payment of all of our obligations under these agreements.

Capitalized lease obligations are collateralized by property and equipment with a net book value of \$7.6 million at December 31, 2012.

As of December 31, 2012, aggregate maturities of long-term debt are as follows:

<u>(In thousands)</u>	
2013	\$ 38,978
2014	35,715
2015	35,714
2016	35,000
2017	—
Thereafter	<u>95,000</u>
	<u>\$ 240,407</u>

OLD DOMINION FREIGHT LINE, INC.
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Note 3. Shareholders' Equity

On February 2, 2011, we entered into an At-The-Market Equity Offering Sales Agreement with Stifel, Nicolaus & Company, Incorporated ("Stifel Nicolaus Weisel") pursuant to which we had the ability to issue and sell, from time to time over a 12-month period through or to Stifel Nicolaus Weisel, shares of our common stock having an aggregate offering price of up to \$100.0 million (the "ATM program"). The ATM program was conducted pursuant to the Company's automatic shelf registration statement on Form S-3 (File No. 333-162709), filed by the Company on October 28, 2009 with the SEC, and a prospectus supplement, filed by the Company on February 2, 2011 with the SEC. Sales of the Company's common stock in the offering were made by means of ordinary brokers' transactions on the Nasdaq, in privately negotiated transactions, or otherwise at prevailing market prices at the time of sale. Set forth below is information regarding our ATM program. Shares and per share amounts have been adjusted for the three-for-two common stock split effected on September 7, 2012.

Period	Aggregate Number of Shares Sold	Aggregate Gross Proceeds	Aggregate Net Proceeds	Average Sales Price Per Share
First quarter 2011	2,274,568	\$ 49,575,000	\$ 48,400,000	\$ 21.79

There were no subsequent issuances pursuant to the ATM program through February 2, 2012, which was the date on which the ATM program expired. The Company's automatic shelf registration statement expired in October 2012.

Note 4. Leases

We lease certain information systems under capital leases. We also lease other assets under operating leases, which primarily consist of real estate leases for 68 of our 218 service center locations at December 31, 2012.

Certain operating leases provide for renewal options. Renewal options and length of renewals vary by lease and are typically offered at their fair rental value. We have not made any residual value guarantees related to our operating leases; therefore, we have no corresponding liability recorded on our Balance Sheets.

Assets under capital leases are included in property and equipment as follows:

<i>(In thousands)</i>	December 31,	
	2012	2011
Information systems	\$ 9,910	\$ 12,232
Less: Accumulated amortization	(2,270)	(3,065)
	\$ 7,640	\$ 9,167

Future minimum annual lease payments as of December 31, 2012 are as follows:

<i>(In thousands)</i>	Capital Leases	Operating Leases	Total
2013	\$ 3,308	\$ 15,823	\$ 19,131
2014	—	11,977	11,977
2015	—	7,566	7,566
2016	—	5,707	5,707
2017	—	4,801	4,801
Thereafter	—	19,136	19,136
Total minimum lease payments	3,308	\$ 65,010	\$ 68,318
Less: Amount representing interest	(44)		
Present value of capitalized lease obligations	\$ 3,264		

Aggregate expense under operating leases was \$19.1 million, \$19.5 million and \$21.0 million for 2012, 2011 and 2010, respectively. Certain operating leases include rent escalation provisions, which we recognize as expense on a straight-line basis.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Note 5. Income Taxes

The components of the provision for income taxes are as follows:

<i>(In thousands)</i>	Year Ended December 31,		
	2012	2011	2010
Current:			
Federal	\$ 74,074	\$ 27,470	\$ 34,255
State	11,890	9,796	6,896
	85,964	37,266	41,151
Deferred:			
Federal	14,978	39,934	6,695
State	2,704	3,414	929
	17,682	43,348	7,624
Total provision for income taxes	\$ 103,646	\$ 80,614	\$ 48,775

The following is a reconciliation of the U.S. statutory federal income tax rates with our effective income tax rates for 2012, 2011 and 2010:

<i>(In thousands)</i>	Year Ended December 31,		
	2012	2011	2010
Tax provision at statutory rate	\$ 95,584	\$ 77,029	\$ 43,549
State income taxes, net of federal benefit	10,211	7,480	5,002
Meals and entertainment disallowance	828	721	616
Tax credits	(2,609)	(4,453)	(744)
Other, net	(368)	(163)	352
Total provision for income taxes	\$ 103,646	\$ 80,614	\$ 48,775

Deferred tax assets and liabilities consist of the following:

<i>(In thousands)</i>	December 31,	
	2012	2011
Deferred tax assets:		
Claims and insurance reserves	\$ 32,499	\$ 30,003
Allowance for doubtful accounts	2,829	2,827
Accrued vacation	12,399	9,339
Deferred compensation	17,734	14,441
Other	9,764	5,992
Total deferred tax assets	75,225	62,602
Valuation allowance	(559)	—
Net deferred tax assets	74,666	62,602
Deferred tax liabilities:		
Depreciation and amortization	(197,875)	(169,309)
Unrecognized revenue	(8,171)	(6,995)
Other	(1,752)	(1,748)
Total deferred tax liabilities	(207,798)	(178,052)
Net deferred tax liability	\$ (133,132)	\$ (115,450)

OLD DOMINION FREIGHT LINE, INC.
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Our net deferred tax liability consists of the following:

<i>(In thousands)</i>	December 31,	
	2012	2011
Current deferred tax asset	\$ 20,054	\$ 19,466
Noncurrent deferred tax liability	(153,186)	(134,916)
Net deferred tax liability	\$ (133,132)	\$ (115,450)

As of December 31, 2012, the Company had various state tax credit carryforwards of approximately \$3.8 million that are scheduled to expire in five to fifteen years. As of December 31, 2012, the Company has established a valuation allowance in the amount of \$559,000 due to the uncertainty of realization of these tax credits.

We are subject to U.S. federal income tax, as well as income tax of multiple state tax jurisdictions. We remain open to examination by the Internal Revenue Service for tax years 2009 through 2012. We remain open to examination by state tax jurisdictions for tax years 2008 through 2012.

Changes in our liability for unrecognized tax benefits could affect our effective tax rate, if recognized, but we do not expect any material changes within the next twelve months. The Company's liability for unrecognized tax benefits was immaterial as of December 31, 2012 and 2011. Interest and penalties related to uncertain tax positions, which are immaterial, are recorded in our Provision for Income Taxes on our Statement of Operations.

Note 6. Related Person Transactions

Family Relationships

Each of Earl E. Congdon, John R. Congdon, David S. Congdon and John R. Congdon, Jr. are related to one another and served in various executive management positions and/or on our Board of Directors during 2012. We have entered into amended and restated employment agreements with Earl E. Congdon and David S. Congdon, which are incorporated by reference as exhibits to our Annual Report on Form 10-K. We regularly disclose the amount of compensation that we pay to these individuals, as well as any of their family members employed by us and whose compensation from time to time may require disclosure, in the proxy statement for our Annual Meeting of Shareholders.

During 2012, John R. Congdon resigned from his position as Senior Vice President but continues to be employed by the Company. In connection with his resignation as a Senior Vice President, the Board of Directors and Mr. Congdon agreed to terminate the amended and restated employment agreement between the Company and John R. Congdon.

Transactions with Old Dominion Truck Leasing, Inc.

Old Dominion Truck Leasing, Inc. ("Leasing") is a North Carolina corporation whose voting stock is owned by an Earl E. Congdon Revocable Trust; the John R. Congdon Revocable Trust; and members of Earl E. Congdon's and John R. Congdon's families. Leasing is primarily engaged in the business of purchasing and leasing tractors, trailers and other vehicles. John R. Congdon is Chairman of the Board of Leasing, and Earl E. Congdon is Vice Chairman of the Board of Leasing. Since 1986, we have combined our requirements with Leasing for the purchase of tractors, trailers, equipment, parts, tires and fuel. We believe that the termination of this arrangement would not have a material adverse impact on our financial results.

We purchased \$239,000, \$278,000 and \$242,000 of maintenance and other services from Leasing in 2012, 2011 and 2010, respectively. We intend to continue to purchase maintenance and other services from Leasing, provided that Leasing's prices continue to be favorable to us.

We also paid Leasing \$86,000 for leased equipment in 2010. These payments were for long-term leases for tractors used in our linehaul operations. We received no commission or other financial benefit from Leasing or any other party in connection with these lease transactions. We did not lease any equipment from Leasing in 2012 or 2011.

We charged Leasing \$18,000, \$18,000 and \$17,000 for the rental of property in 2012, 2011 and 2010, respectively. No other services were provided to Leasing for the years ended December 31, 2012, 2011 and 2010.

OLD DOMINION FREIGHT LINE, INC.
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Split-Dollar Life Insurance Policies

We are the owner of two split-dollar life insurance contracts insuring the life of John R. Congdon. The net cash surrender value for these policies was \$6.8 million and \$6.6 million at December 31, 2012 and 2011, respectively, and is included on our Balance Sheets under the caption "Other assets." At December 31, 2012, these policies provided for an aggregate of \$8.9 million in net death benefits due to the Company, of which we have endorsed \$2.0 million to Mr. Congdon's children.

Note 7. Employee Benefit Plans

Defined Contribution Plan

Substantially all employees meeting certain service requirements are eligible to participate in our 401(k) employee retirement plan. Employee contributions are limited to a percentage of their compensation, as defined in the plan. We make contributions based upon the greater of a percentage of employee contributions or ten percent of net income. Company contributions for 2012, 2011 and 2010 were \$16.9 million, \$13.9 million and \$7.6 million, respectively.

Deferred Compensation Plan

We maintain a nonqualified deferred compensation plan for the benefit of certain eligible employees whose contributions to the 401(k) employee retirement plan are limited due to provisions of the Internal Revenue Code. Participating employees may elect to defer receipt of a percentage of their compensation, as defined in the plan, and the deferred amount is credited to each participant's deferred compensation account. The plan is not funded and the Company does not make a matching contribution to this plan. Although the plan is not funded, participants are allowed to select investment options for which their deferrals and future earnings are deemed to be invested. Participant accounts are adjusted daily to reflect participant deferrals and the performance of their deemed investments. The amounts owed to the participants totaled \$30.0 million and \$24.6 million at December 31, 2012 and 2011, respectively.

Note 8. Share-Based Compensation

On May 16, 2005, our Board of Directors approved, and the Company adopted, the Old Dominion Freight Line, Inc. Phantom Stock Plan, as amended effective January 1, 2009, May 18, 2009 and May 17, 2011 (the "Phantom Stock Plan"). The Phantom Stock Plan expired in May 2012; however, the Board of Directors approved the Old Dominion Freight Line, Inc. 2012 Phantom Stock Plan (the "2012 Plan") in October 2012, as described below. Each share of phantom stock awarded to eligible employees under the Phantom Stock Plan represents a contractual right to receive an amount in cash equal to the fair market value of a share of our common stock on the settlement date, which generally is the earlier of the eligible employee's (i) termination from the Company after reaching 55 years of age, (ii) death or (iii) disability. No shares of common stock will be issued pursuant to the Phantom Stock Plan, as the awards are settled in cash after the required vesting period has been satisfied and upon termination of employment. The maximum number of shares of phantom stock that were available for awards under the Phantom Stock Plan was 843,750. Our Board of Directors approved the initial grant under this plan at its January 2006 meeting and authorized grants annually thereafter until the Phantom Stock Plan's expiration.

Phantom Stock Plan awards vest upon the earlier to occur of the following: the date of a change of control in our ownership; the fifth anniversary of the grant date of the award, provided the participant is employed by us on that date; the date of the participant's death while employed by us; the date of the participant's total disability; or the date the participant attains the age of 65 while employed by us. Awards that are not vested upon termination of employment are forfeited. If termination occurs prior to attaining the age of 55, all vested and unvested awards are generally forfeited unless the termination results from death or total disability. The Phantom Stock Plan does, however, provide the Board of Directors with discretionary authority to modify and/or accelerate the vesting of awards.

On May 28, 2008, our Board of Directors approved, and the Company adopted, the Old Dominion Freight Line, Inc. Director Phantom Stock Plan, as amended on April 1, 2011 (the "Director Phantom Stock Plan" and together with the Phantom Stock Plan, the "Phantom Plans"). Under the Director Phantom Stock Plan, each non-employee eligible director shall be granted an annual award of phantom shares equal to \$50,000 on the grant date. Prior to the 2011 grant, the annual award to each non-employee eligible director was equal to \$30,000 on the grant date. For each vested share, participants are entitled to an amount in cash equal to the fair market value of a share of our common stock on the date that service as a director terminates for any reason. No shares of common stock will be issued pursuant to the Director Phantom Stock Plan, as the awards are

OLD DOMINION FREIGHT LINE, INC.
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

settled in cash. Our Board of Directors approved the initial grant under this plan at its May 2008 meeting and have authorized grants annually thereafter.

Director Phantom Stock Plan awards vest upon the earlier to occur of the following: the one-year anniversary of the grant date; the date of the first annual meeting of shareholders that occurs after the grant date provided the participant is still in service as a director; the date of a change of control in our ownership provided that the participant is still in service as a director; or the date of the participant's death or total disability while still in service as a director. Awards that are not vested upon termination of service as a director are forfeited.

A summary of the changes in the number of outstanding phantom stock awards during the year ended December 31, 2012 for the Phantom Plans is provided below. Of these awards, 277,701 and 201,876 phantom shares were vested at December 31, 2012 and 2011, respectively.

	Phantom Stock Plan	Director Phantom Stock Plan
Balance of shares outstanding at December 31, 2011	422,173	50,231
Granted	111,661	10,125
Settled	(61,195)	—
Forfeited	(5,012)	—
Balance of shares outstanding at December 31, 2012	467,627	60,356

Provisions for the granting of phantom stock shares under the Phantom Stock Plan expired in May 2012. The Board of Directors, however, authorized grants outside the Phantom Stock Plan in July and August of 2012 to retiring employees totaling 4,481 phantom shares with terms and conditions similar to those in the Phantom Stock Plan. These shares vested immediately and the settlement resulted in additional compensation expense of \$129,000.

On October 30, 2012, our Board of Directors approved and we adopted the 2012 Plan. Under the 2012 Plan, 1,000,000 shares of phantom stock may be awarded, each of which represent a contractual right to receive an amount in cash equal to the fair market value of a share of our common stock on the settlement date. Each award vests in 20% increments on the anniversary of the grant date provided that the participant (i) has been continuously employed by us since the grant date, (ii) has been continuously employed by us for ten years and (iii) has reached the age of 65. Vesting also occurs on the earliest of (i) a change in control, (ii) death or (iii) total disability. Unvested shares are forfeited upon termination of employment, although our Board of Directors has authority to modify and/or accelerate the vesting of awards.

Participants in the 2012 Plan are entitled to receive amounts due on vested shares on the settlement date, which is the earliest of the date of the participant's (i) termination of employment for any reason other than for cause, (ii) death or (ii) disability. Unless the award agreement specifies otherwise, payments will be made in cash over 24 substantially equal monthly payments.

There were no awards of phantom stock made in 2012 under the 2012 Plan.

Awards of phantom stock are accounted for as a liability under The Financial Accounting Standards Board Accounting Standards Codification™ ("FASC") 718, *Compensation – Stock Compensation*. FASC 718 requires changes in the fair value of our liability to be recognized as compensation cost over the requisite service period for the percentage of requisite service rendered each period. Changes in the fair value of the liability that occur after the requisite service period are recognized as compensation cost during the period in which the changes occur. We remeasure the liability for the outstanding awards at the end of each reporting period based on the closing price of our common stock at that date, and the compensation cost is based on the change in fair value for each reporting period. The liability for these awards totaled \$16.2 million and \$10.9 million at December 31, 2012 and 2011, respectively. Cash payments for settled shares of phantom stock were \$1.1 million, \$0.5 million and zero for 2012, 2011 and 2010, respectively. Compensation costs totaled \$6.4 million, \$4.2 million and \$4.4 million for 2012, 2011 and 2010, respectively. Unrecognized compensation cost related to all unvested shares as of December 31, 2012 was \$3.7 million based on the price of our common stock on that date.

Note 9. Commitments and Contingencies

We are involved in various legal proceedings and claims that have arisen in the ordinary course of our business that have not been fully adjudicated. Many of these are covered in whole or in part by insurance. Our management does not believe that these actions, when finally concluded and determined, will have a material adverse effect upon our financial position, liquidity or results of operations.

Note 10. Quarterly Financial Information (Unaudited)

A summary of our unaudited quarterly financial information for 2012 and 2011 is provided below. Our tonnage levels and revenue mix are subject to seasonal trends common in the motor carrier industry. Financial results in the first quarter are normally lower due to reduced shipments during the winter months. Harsh winter weather can also adversely impact our performance by reducing demand and increasing operating expenses.

<i>(In thousands, except per share data)</i>	Quarter				
	First	Second	Third	Fourth	Total
2012					
Revenue	\$ 497,140	\$ 541,505	\$ 544,493	\$ 527,345	\$ 2,110,483
Operating income	54,218	82,588	80,932	67,516	285,254
Net income	31,095	47,832	51,044	39,481	169,452
Net income per share:					
Basic and diluted	0.36	0.56	0.59	0.46	1.97
2011					
Revenue	\$ 422,679	\$ 480,255	\$ 494,475	\$ 485,132	\$ 1,882,541
Operating income	37,921	64,645	68,194	63,312	234,072
Net income	21,573	39,383	38,631	39,883	139,470
Net income per share:					
Basic and diluted	0.26	0.46	0.45	0.46	1.63

Note 11. Subsequent Events

Management evaluated all subsequent events and transactions through the issuance date of these financial statements, and concluded that no subsequent events or transactions have occurred that require recognition or disclosure in our financial statements.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of
Old Dominion Freight Line, Inc.

We have audited the accompanying balance sheets of Old Dominion Freight Line, Inc. as of December 31, 2012 and 2011, and the related statements of operations, changes in shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2012. Our audits also included the financial statement schedule listed in the Index at Item 15(a)(2). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Old Dominion Freight Line, Inc. at December 31, 2012 and 2011, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2012, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Old Dominion Freight Line, Inc.'s internal control over financial reporting as of December 31, 2012, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 28, 2013, expressed an unqualified opinion thereon.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

a) Evaluation of disclosure controls and procedures

As of the end of the period covered by this report, our management has conducted an evaluation, with the participation of our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), of the effectiveness of our disclosure controls and procedures in accordance with Rule 13a-15 under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Based on this evaluation as of the end of the period covered by this report, our CEO and CFO concluded that, as of such date, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is (i) accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosure, and (ii) recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms.

b) Management’s annual report on internal control over financial reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting in accordance with Exchange Act Rule 13a-15(f). Management has conducted an evaluation, with the participation of our CEO and CFO, of the effectiveness of our internal control over financial reporting as of December 31, 2012 based on the framework in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Management concluded that our internal control over financial reporting was effective as of December 31, 2012, based on our evaluation under the framework in *Internal Control – Integrated Framework*.

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, in designing a control system, we must take into account the benefits of controls relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

The effectiveness of our internal control over financial reporting as of December 31, 2012 has been audited by Ernst & Young LLP, an independent registered public accounting firm, as stated in their report which is included herein.

c) Changes in internal control over financial reporting

There were no changes in our internal control over financial reporting that occurred during the last quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of
Old Dominion Freight Line, Inc.

We have audited Old Dominion Freight Line, Inc.'s internal control over financial reporting as of December 31, 2012, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Old Dominion Freight Line, Inc.'s management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Old Dominion Freight Line, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2012, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the balance sheets of Old Dominion Freight Line, Inc. as of December 31, 2012 and 2011, and the related statements of operations, changes in shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2012 and our report dated February 28, 2013 expressed an unqualified opinion thereon.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information required by Item 10 of Form 10-K will appear in the Company's proxy statement for its 2013 Annual Meeting of Shareholders under the captions "Proposal 1 – Election of Directors," "Executive Officers," "Section 16(a) Beneficial Ownership Reporting Compliance," "Corporate Governance – Attendance and Committees of the Board – Audit Committee," and "Corporate Governance – Director Nominations," and the information therein is incorporated herein by reference.

We have adopted a "Code of Business Conduct" that applies to all of our directors and officers and other employees, including our principal executive officer, principal financial officer and principal accounting officer. Our Code of Business Conduct is publicly available and is posted on our website at www.odfl.com/company/corpGovernance.shtml. To the extent permissible under applicable law, the rules of the SEC and Nasdaq listing standards, we intend to disclose on our website any amendment to our Code of Business Conduct, or any grant of a waiver from a provision of our Code of Business Conduct, that requires disclosure under applicable law, the rules of the SEC or Nasdaq listing standards.

ITEM 11. EXECUTIVE COMPENSATION

The information required by Item 11 of Form 10-K will appear in the Company's proxy statement for its 2013 Annual Meeting of Shareholders under the captions "Corporate Governance – Compensation Committee Interlocks and Insider Participation," "Compensation Discussion and Analysis," "Compensation Committee Report," "Executive Compensation," and "Director Compensation," and the information therein is incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information required by Item 12 of Form 10-K will appear in the Company's proxy statement for its 2013 Annual Meeting of Shareholders under the caption "Security Ownership of Management and Certain Beneficial Owners," and the information therein is incorporated herein by reference.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information required by Item 13 of Form 10-K will appear in the Company's proxy statement for the 2013 Annual Meeting of Shareholders under the captions "Corporate Governance – Independent Directors" and "Related Person Transactions," and the information therein is incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

The information required by Item 14 of Form 10-K will appear in the Company's proxy statement for its 2013 Annual Meeting of Shareholders under the captions "Corporate Governance – Audit Committee Pre-Approval Policies and Procedures" and "Independent Registered Public Accounting Firm Fees and Services," and the information therein is incorporated herein by reference.

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES

(a)(1) Financial Statements.

The following financial statements of Old Dominion Freight Line, Inc. are included in Item 8:

Balance Sheets – December 31, 2012 and December 31, 2011

Statements of Operations – Years ended December 31, 2012, December 31, 2011 and December 31, 2010

Statements of Changes in Shareholders' Equity – Years ended December 31, 2012, December 31, 2011 and December 31, 2010

Statements of Cash Flows – Years ended December 31, 2012, December 31, 2011 and December 31, 2010

Notes to the Financial Statements

(a)(2) Financial Statement Schedules.

The Schedule II – Valuation and Qualifying Accounts schedule of Old Dominion Freight Line, Inc. is included below:

Schedule II Old Dominion Freight Line, Inc. Valuation and Qualifying Accounts

(In thousands)

Year Ended December 31,	Allowance for Uncollectible Accounts ⁽¹⁾			
	Balance at Beginning of Period	Charged to Expense	Deductions ⁽²⁾	Balance at End of Period
2010	\$ 10,199	\$ 545	\$ 3,944	\$ 6,800
2011	\$ 6,800	\$ 3,200	\$ 2,723	\$ 7,277
2012	\$ 7,277	\$ 2,123	\$ 2,118	\$ 7,282

- (1) This table does not include any allowances for revenue adjustments that result from billing corrections, customer allowances, money-back service guarantees and other miscellaneous revenue adjustments that are recorded in our revenue from operations.
- (2) Uncollectible accounts written off, net of recoveries.

All other schedules for which provision is made in the applicable accounting regulations of the SEC are not required under the instructions or are inapplicable and, therefore, have been omitted.

(a)(3) Exhibits Filed.

The exhibits listed in the accompanying Exhibit Index are filed as a part of this report.

(b) Exhibits.

See Exhibit Index.

(c) Separate Financial Statements and Schedules.

None.

AMENDED AND RESTATED BYLAWS
OF
OLD DOMINION FREIGHT LINE, INC.

ARTICLE 1 - OFFICES

Section 1. Principal and Registered Office. The principal office of the corporation shall be located in Thomasville, North Carolina. The registered office of the corporation in Virginia shall be located at 4701 Cox Road, Suite 301, Glen Allen, Virginia 23060-6802.

Section 2. Other Offices. The corporation may have offices at such other places, either within or without the State of North Carolina, as the board of directors may from time to time determine.

ARTICLE 2 - MEETINGS OF SHAREHOLDERS

Section 1. Place of Meeting. Meetings of shareholders shall be held at the principal office of the corporation, or at such other place, either within or without the State of North Carolina, as shall be designated in the notice of the meeting.

Section 2. Annual Meeting. The annual meeting of shareholders shall be held at 10:00 o'clock a.m. on the first Monday in May of each year, if not a legal holiday, but if a legal holiday, then on the next business day which is not a legal holiday, or at such other time and on such other date as the Board of Directors may determine, for the purpose of electing directors of the corporation and the transaction of such other business as may be properly brought before the meeting.

Section 3. Substitute Annual Meeting. If the annual meeting is not held on the day designated by these bylaws, a substitute annual meeting may be called in accordance with Section 4 of this Article. A meeting so called shall be designated and treated for all purposes as the annual meeting.

Section 4. Special Meetings. Special meetings of the shareholders may be called at any time by the board of directors, the chairman of the board, the vice chairman of the board, the president or the secretary, and must be called if the corporation has thirty-five (35) or fewer shareholders of record and the holders of at least twenty percent (20%) of all the votes entitled to be cast on any issue proposed to be considered at the proposed special meeting sign, date and deliver to the corporation's secretary one or more written demands for the meeting describing the purpose or purposes for which it is to be held.

Section 5. Notice of Meetings. The corporation shall notify shareholders in writing of the date, time and place of each annual and special meeting of shareholders and, in the case of a special or substitute annual meeting or where otherwise required by law, shall briefly describe the purpose or purposes of the meeting. Such notice shall be given no less than ten (10) nor more than sixty (60) days before the meeting date except that notice of a meeting to act on an amendment of the articles incorporation, a plan of merger or share exchange, a proposed sale of

all or substantially all of the assets of the corporation other than in the usual and regular course of business, or the dissolution of the corporation, shall be given no less than twenty-five (25) nor more than sixty (60) days before the meeting date. Only business within the purpose or purposes described in the notice may be conducted at a special meeting. Unless otherwise required by the articles of incorporation or by law (for example, in the event of a meeting to consider the adoption of a plan of merger or share exchange, a sale of assets other than in the ordinary course of business or a voluntary dissolution), the corporation shall be required to give notice only to shareholders entitled to vote at the meeting. If an annual or special shareholders' meeting is adjourned to a different date, time or place, notice thereof need not be given if the new date, time or place is announced at the meeting before adjournment. If a new record date for the adjourned meeting is fixed pursuant to Article 7, Section 5 hereof, notice of the adjourned meeting shall be given to persons who are shareholders as of the new record date. It shall be the primary responsibility of the secretary to give the notice, but notice may be given by or at the direction of the president or other person or persons calling the meeting. If mailed, such notice shall be deemed to be effective when deposited in the United States mail with postage thereon prepaid, correctly addressed to the shareholder's address shown in the corporation's current record of shareholders.

Section 6. Quorum. Unless otherwise provided by the articles of incorporation or by law, a majority of the votes entitled to be cast by a voting group on a matter, represented in person or by proxy at a meeting of shareholders, shall constitute a quorum for that voting group for any action on that matter. Once a share is represented for any purpose at a meeting, it is deemed present for quorum purposes for the remainder of the meeting and any adjournment thereof, unless a new record date is or must be set for the adjournment. Action may be taken by a voting group at any meeting at which a quorum of that voting group is represented, regardless of whether action is taken at that meeting by any other voting group. In the absence of a quorum at the opening of any meeting of shareholders, such meeting may be adjourned from time to time by a vote of the majority of the shares voting on the motion to adjourn.

Section 7. Shareholders' List for Meeting. The officer or agent having charge of the share transfer books of the corporation shall make available, beginning two (2) business days after notice of a meeting is given to shareholders, a complete list of the shareholders entitled to vote at such meeting or any adjournment thereof, with the address of and the number of shares held by each. The list shall be arranged by voting group and within each voting group by class or series of shares. Beginning two (2) business days after notice of a meeting is given to shareholders, the list of shareholders shall be kept on file at the registered office of the corporation or at its principal office or at the office of its transfer agent or registrar and shall be subject to inspection by any shareholder at any time during usual business hours. Such list shall also be produced and kept open at the time and place of the meeting and shall be subject to the inspection of any shareholder during the whole time of the meeting for the purposes thereof. The original share transfer books shall be prima facie evidence as to who are the shareholders entitled to examine such list or transfer books or to vote at any meeting of shareholders. If the requirements of this Section 7 have not been substantially complied with, the meeting shall, on the demand of any shareholder in person or by proxy, be adjourned until the requirements are complied with. Refusal or failure to prepare or make available the shareholders' list does not affect the validity of action taken at the meeting prior to the making of any such demand, but any

action taken by the shareholders after the making of any such demand shall be invalid and of no effect.

Section 8. Voting of Shares. Except as otherwise provided by the articles of incorporation or by law, each outstanding share of voting capital stock of the corporation shall be entitled to one vote on each matter submitted to a vote at a meeting of the shareholders. Unless otherwise provided in the articles of incorporation, cumulative voting for directors shall not be allowed. Action on a matter by a voting group for which a quorum is present is approved if the votes cast within the voting group favoring the action exceed the votes cast opposing the action, unless the vote of a greater number is required by law or by the articles of incorporation. Voting on all matters shall be by voice vote or by a show of hands, unless the holders of one-tenth of the shares represented at the meeting shall demand a ballot vote on a particular matter. The shares of the corporation are not entitled to vote if they are owned, directly or indirectly, by a second corporation, domestic or foreign, and the corporation owns, directly or indirectly, a majority of the shares entitled to vote for directors of the second corporation.

Section 9. Inspectors of Election.

(a) Appointment of Inspectors of Election. In advance of any meeting of shareholders, the board of directors may appoint any persons, other than nominees for office, as inspectors of election to act at such meeting or any adjournment thereof. If inspectors of election are not so appointed, the chairman of any such meeting may, and on the request of any shareholder or his proxy shall, appoint inspectors of election at the meeting. The number of inspectors shall be either one or three. If appointed at a meeting on the request of one or more shareholders or proxies, the majority of shares present shall determine whether one or three inspectors are to be appointed. In case any person appointed as inspector fails to appear or fails or refuses to act, the vacancy may be filled by appointment by the board of directors in advance of the meeting, or at the meeting by the person acting as chairman.

(b) Duties of inspectors. The inspectors of election shall determine the number of shares outstanding and the voting power of each, the shares represented at the meeting, the existence of a quorum, the authenticity, validity, and effect of proxies, receive votes, ballots, or consents, hear and determine all challenges and questions in any way arising in connection with the right to vote, count and tabulate all votes or consents, determine the result, and do such acts as may be proper to conduct the election or vote with fairness to all shareholders. The inspectors of election shall perform their duties impartially, in good faith, to the best of their ability and as expeditiously as is practical.

(c) Vote of inspectors. If there are three inspectors of election the decision, act, or certificate of a majority is effective in all respects as the decision, act, or certificate of all.

(d) Report of inspectors. On request of the chairman of the meeting or of any shareholder or his proxy the inspectors shall make a report in writing of any challenge or question or matter determined by them and execute a certificate of any fact found by them. Any report or certificate made by them is prima facie evidence of the facts stated herein.

Section 10. Action Without Meeting. Any action which the shareholders could take at a meeting may be taken without a meeting if one or more written consents, setting forth the action taken, shall be signed by all the shareholders who would be entitled to vote upon the action at a meeting. The consent shall be delivered to the corporation for inclusion in the minutes or filing with the corporate records. Any action taken by unanimous written consent shall be effective according to its terms when all consents are in the possession of the corporation. A shareholder may withdraw consent only by delivering a written notice of withdrawal to the corporation prior to the time that all consents are in the possession of the corporation. Action taken without a meeting is effective as of the date specified therein, provided the consent states the date of execution by each shareholder. If by law, the corporation is required to give its nonvoting shareholders written notice of the proposed action, it shall do so at least 10 days before the action is taken, and such notice must contain or be accompanied by the same material that would have been required by law to be sent to nonvoting shareholders in a notice of meeting at which the proposed action would have been submitted to the shareholders for action.

Section 11. Actions to be Taken at Annual Meetings of Shareholders . No business shall be transacted at an annual meeting of shareholders, except business that is (a) specified in the notice of meeting given as provided in Section 5 of this Article, (b) otherwise brought before the meeting by or at the direction of the board of directors, or (c) otherwise brought before the meeting by a shareholder of record of the corporation entitled to vote at the meeting, in compliance with the procedures set forth in this Section 11. For business to be brought before an annual meeting by a shareholder pursuant to clause (c) above, the shareholder must give timely notice in writing to the secretary. To be timely, a shareholder's notice must be given, either by personal delivery to the secretary at the principal office of the corporation or by United States certified mail, postage prepaid, addressed to the secretary at the principal office of the corporation, and received not later than the close of business on the one hundred twentieth (120th) day and not earlier than the close of business on the one hundred fiftieth (150th) day prior to the first anniversary of the date that the corporation mailed its proxy materials for the prior year's annual meeting of shareholders; provided, however, that if no annual meeting of shareholders was held in the prior year or the date of the annual meeting of shareholders has changed by more than thirty (30) days from the prior year, notice must be received not later than the close of business on the ninetieth (90th) day prior to such annual meeting. In no event shall any adjournment or postponement of an annual meeting or the announcement thereof commence a new time period, or extend any new time period, for the giving of a shareholder's notice as described above.

Each such shareholder's notice shall set forth as to each matter the shareholder proposes to bring before the annual meeting the following information, correct and complete as of the date of the notice:

- (i) a brief description of the business desired to be brought before the annual meeting, including the complete text of any resolutions to be presented at the annual meeting, and the reasons for conducting such business at the annual meeting;
- (ii) as to the shareholder giving the notice and the beneficial owner, if any, on whose behalf the proposal is made:
 - (a) the name and address, as they appear on the corporation's stock transfer books, of such shareholder proposing such business;
 - (b) the name and address of

such beneficial owner, if any; (c) a representation that the shareholder is a shareholder of record and intends to appear in person or by proxy at such meeting to bring the business specified in the notice before the meeting; (d) the class and number of shares of stock of the corporation beneficially owned, directly or indirectly, by the shareholder and by such beneficial owner, if any; and (e) a description of any agreement, arrangement or understanding (including any derivative or short positions, profit interests, options, hedging transactions, and borrowed or loaned shares) that has been entered into as of the date of the shareholder's notice by, or on behalf of, the shareholder or any of its affiliates or associates, the effect or intent of which is to mitigate loss, manage risks or benefit from changes in the share price of the corporation's stock, or to increase or decrease the voting power of the shareholder or any of its affiliates or associates with respect to shares of the corporation's stock, and a representation that the shareholder will notify the corporation in writing of any such agreement, arrangement or understanding in effect as of the record date for the annual meeting promptly following the later of the record date or the date notice of the record date is first publicly disclosed;

(iii) a description of all agreements, arrangements and understandings between the shareholder or beneficial owner, if any, and any other person or persons (including their names) in connection with the proposal of such business by the shareholder;

(iv) any other information relating to the shareholder and beneficial owner, if any, that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for the proposal pursuant to Section 14 of the Securities Exchange Act of 1934, as amended, and the rules and regulations promulgated thereunder; and

(v) any material interest of the shareholder or the beneficial owner, if any, in such business.

The information in the shareholder notice shall be supplemented or updated if necessary by the shareholder and the beneficial owner, if any, so that the information shall be true and correct as of the record date of the applicable meeting and as of the date that is ten (10) business days prior to the meeting, including any adjournment thereof, and such supplement or update shall be delivered to the secretary not later than two (2) business days after each respective date. The secretary shall deliver each shareholder's notice that has been timely received to the chairman of the board for review.

Notwithstanding the foregoing provisions of this Section 11, a shareholder seeking to have a proposal included in the corporation's proxy statement for an annual meeting of shareholders (other than the nomination of a director, which is exclusively governed by Article 3, Section 6) shall comply with the requirements, including but not limited to the notice requirements, of Regulation 14A under the Securities Exchange Act of 1934, as amended, or with any successor regulation.

Notwithstanding anything in these bylaws to the contrary, with the exception of Article 3, Section 6, no business shall be conducted at an annual meeting of shareholders except in accordance with the procedures set forth in this Section 11. The chairman of an annual meeting of shareholders shall, if the facts warrant, determine and declare to the meeting whether business was not properly brought before the annual meeting of shareholders in accordance with the

procedures prescribed by this Section 11 and, if the chairman should so determine, the chairman shall so declare to the meeting that, to the extent permitted by law, any business not properly brought before the annual meeting of shareholders shall not be transacted.

ARTICLE 3 - BOARD OF DIRECTORS

Section 1. General Powers. The business and affairs of the corporation shall be managed under the direction of the board of directors except as otherwise provided by the articles of incorporation or by a valid shareholders' agreement.

Section 2. Number, Term and Qualification. The number of directors of the corporation shall be not less than five nor more than twelve individuals. The number of directors shall be fixed from time to time by a resolution of the majority of the board of directors or by a resolution of the shareholders at any meeting; but in the absence of such resolution, the number of directors elected at the meeting shall constitute the number of directors of the corporation until the next annual meeting of the shareholders, unless the number is changed prior to such meeting in the manner set forth above. In the absence of such resolution, the number of directors elected at the meeting shall constitute the number of directors of the corporation until the next annual meeting of shareholders, unless the number is changed prior to such meeting by action of the shareholders. Each director's term shall expire at the annual meeting next following the director's election as a director, provided, that notwithstanding the expiration of the term of the director, the director shall continue to hold office until a successor is elected and qualifies or until his death, resignation, removal or disqualification or until there is a decrease in the number of directors. The term of a director elected to fill a vacancy expires at the next annual meeting of shareholders. Directors need not be residents of the states of Virginia or North Carolina or shareholders of the corporation unless the articles of incorporation so provide.

Section 3. Removal. Directors may be removed from office with or without cause (unless the articles of incorporation provide that directors may be removed only with cause) provided the notice of the shareholders' meeting at which such action is to be taken states that a purpose of the meeting is removal of the director and the number of votes cast to remove the director constitutes a majority of the votes entitled to be cast at an election of directors of the voting group or voting groups by which the director was elected.

Section 4. Vacancies. Except as otherwise provided in the articles of incorporation, a vacancy occurring in the board of directors, including, without limitation, a vacancy resulting from an increase in the number of directors, may be filled by a majority of the directors remaining in office. The shareholders may elect a director at an annual or special meeting of shareholders to fill a vacancy not filled by the directors in accordance with the provisions set forth in these bylaws. A director elected to fill a vacancy shall be elected for the unexpired term of his predecessor in office.

Section 5. Compensation. The directors shall not receive compensation for their services as such, except that by resolution of the board of directors, the directors may be paid fees, which may include but are not restricted to fees for attendance at meetings of the board or of a

committee, and they may be reimbursed for expenses of attendance. Any director may serve the corporation in any other capacity and receive compensation therefor.

Section 6. Nominations for Election of Directors. Only persons who are nominated in accordance with the provisions set forth in these bylaws shall be eligible to be elected as directors at an annual or special meeting of shareholders. Nominations of persons for election to the board of directors may be made at such meeting of shareholders (a) by or at the direction of the board of directors, and (b) by any shareholder of the corporation who is a shareholder of record at the time of giving of notice provided for in this Section 6, who shall be entitled to vote for the election of directors at the meeting and who complies with the notice procedure set forth in this Section 6. Such nominations other than those made by or at the direction of the board of directors, shall be made pursuant to timely notice in writing to the secretary.

To be timely, a shareholder's written notice of intent to make a nomination or nominations must be given, either by personal delivery to the secretary at the principal office of the corporation or by United States certified mail, postage prepaid, addressed to the secretary at the principal office of the corporation, and received: (i) with respect to an election to be held at an annual meeting of shareholders, not later than the close of business on the one hundred twentieth (120th) day and not earlier than the close of business on the one hundred fiftieth (150th) day prior to the first anniversary of the date that the corporation mailed its proxy materials for the prior year's annual meeting of shareholders; provided, however, that if no annual meeting of shareholders was held in the prior year or the date of the annual meeting of shareholders has changed by more than thirty (30) days from the prior year, notice must be received not later than the close of business on the ninetieth (90th) day prior to such annual meeting; and (ii) with respect to a special meeting of shareholders for the election of directors, not later than the close of business on the seventh (7th) day following the date on which notice of such meeting is first given to shareholders. No person shall be eligible for election as a director unless nominated in accordance with the procedures set forth in this Section 6. In no event shall any adjournment or postponement of a meeting of shareholders or the announcement thereof commence a new time period, or extend any time period, for the giving of a shareholder's notice as described above.

Each such shareholder's notice shall set forth the following information, correct and complete as of the date of the notice: (a) as to the shareholder giving the notice and the beneficial owner, if any, on whose behalf the nomination is made: (i) the name and address, as they appear on the corporation's stock transfer books, of such shareholder; (ii) the name and address of such beneficial owner, if any; (iii) a representation that the shareholder is a shareholder of record and intends to appear in person or by proxy at such meeting to nominate the person or persons specified in the notice; (iv) the class and number of shares of stock of the corporation beneficially owned, directly or indirectly, by the shareholder and by such beneficial owner, if any; and (v) a description of any agreement, arrangement or understanding (including any derivative or short positions, profit interests, options, hedging transactions, and borrowed or loaned shares) that has been entered into as of the date of the shareholder's notice by, or on behalf of, the shareholder or any of its affiliates or associates, the effect or intent of which is to mitigate loss, manage risks or benefit from changes in the share price of the corporation's stock, or to increase or decrease the voting power of the shareholder or any of its affiliates or associates with respect to shares of stock of the corporation, and a representation that the shareholder will notify the corporation in writing of any such agreement, arrangement or understanding in effect

as of the record date for the meeting promptly following the later of the record date or the date notice of the record date is first publicly disclosed; (b) as to each person the shareholder proposes to nominate for election or reelection to the board of directors: (i) the name, age, business address and, if known, residence address of such person; (ii) the principal occupation or employment of such person; (iii) the class and number of shares of stock of the corporation which are beneficially owned by such person; (iv) all information relating to such person that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for election of directors in a contested election pursuant to Section 14 of the Securities Exchange Act of 1934, as amended, and the rules and regulations promulgated thereunder (including such person's written consent to being named in the proxy statement as a nominee and to serving as a director if elected); and (v) a description of all direct and indirect compensation and other material monetary agreements, arrangements and understandings during the past three years, and any other material relationships, between or among such shareholder or beneficial owner, if any, and their respective affiliates and associates, or others acting in concert therewith, on the one hand, and each proposed nominee, and his or her respective affiliates and associates, or others acting in concert therewith, on the other hand, including without limitation all information that would be required to be disclosed pursuant to Rule 404 promulgated under Regulation S-K if the shareholder making the nomination and any beneficial owner on whose behalf the nomination is made, if any, or any affiliate or associate thereof or person acting in concert therewith, were the "registrant" for purposes of such rule and the nominee were a director or executive officer of such registrant; (c) a description of all agreements, arrangements and understandings between the shareholder or beneficial owner, if any, and any other person or persons (including their names) in connection with the nomination by the shareholder; (d) any other information relating to the shareholder and beneficial owner, if any, that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for the election of directors in a contested election pursuant to Section 14 of the Securities Exchange Act of 1934, as amended, and the rules and regulations promulgated thereunder; and (e) any material interest of the shareholder or the beneficial owner, if any, in such nomination. The information in the shareholder notice shall be supplemented or updated if necessary by the shareholder and the beneficial owner, if any, so that the information shall be true and correct as of the record date of the applicable meeting and as of the date that is ten (10) business days prior to the meeting, including any adjournment thereof, and such supplement or update shall be delivered to the secretary not later than two (2) business days after each respective date.

Any proposed nominee shall promptly furnish to the corporation such other information as may reasonably be required by the corporation to determine the eligibility of such proposed nominee to serve as an independent director of the corporation or that could be material to a reasonable shareholder's understanding of the independence, or lack thereof, of such nominee.

In addition to the provisions of this Section 6, a shareholder shall also comply with all applicable requirements of the Securities Exchange Act of 1934, as amended, and the rules and regulations thereunder with respect to the matters set forth in this Section 6. Nothing in this Section 6 shall be construed to require that the corporation include any nomination on the proxy card disseminated by the corporation with respect to any meeting or in any proxy statement filed in connection therewith. For the avoidance of doubt, this Section 6 shall apply to all director nominations intended to be brought before a shareholder meeting irrespective of whether any

such nomination is intended to be included in the corporation's proxy statement, a competing proxy solicitation, or otherwise.

The secretary of the corporation shall deliver each such shareholder's notice containing the information required by this Section 6 that has been timely received to the board of directors or a committee designated by the board of directors for review. Any person nominated for election as director by the board of directors or any committee designated by the board of directors shall, upon the request of the board of directors or such committee, furnish to the secretary of the corporation all such information pertaining to such person that is required to be set forth in a shareholder's notice of nomination. The chairman of a meeting of shareholders shall, if the facts warrant, determine and declare to the meeting that a nomination was not made in accordance with the procedures prescribed by this Section 6 and, if he should so determine, he shall so declare to the meeting that the defective nomination shall be disregarded.

ARTICLE 4 - MEETINGS OF DIRECTORS

Section 1. Annual and Regular Meetings. The annual meeting of the board of directors shall be held immediately following the annual meeting of the shareholders. The board of directors may by resolution provide for the holding of regular meetings of the board on specified dates and at specified times. Notice of regular meetings held at the principal office of the corporation and at the usual scheduled time shall not be required. If any date for which a regular meeting is scheduled shall be a legal holiday, the meeting shall be held on a date designated in the notice of the meeting, if any, during either the same week in which the regularly scheduled date falls or during the preceding or following week. Regular meetings of the board shall be held at the principal office of the corporation or at such other place as may be designated in the notice of the meeting.

Section 2. Special Meetings. Special meetings of the board of directors may be called by or at the request of the chairman of the board, the vice chairman of the board, the president or any two directors. Such meetings may be held at the time and place designated in the notice of the meeting.

Section 3. Notice of Meetings. Unless the articles of incorporation provide otherwise, the annual and regular meetings of the board of directors may be held without notice of the date, time, place or purpose of the meeting. The secretary or other person or persons calling a special meeting shall give notice by any usual means of communication to be sent at least two days before the meeting if notice is sent by means of telephone, telecopy or personal delivery and at least five days before the meeting if notice is sent by mail. A director's attendance at, or participation in, a meeting for which notice is required shall constitute a waiver of notice, unless the director at the beginning of the meeting (or promptly upon arrival) objects to holding the meeting or transacting business at the meeting and does not thereafter vote for or assent to action taken at the meeting.

Section 4. Quorum. Except as otherwise provided in the articles of incorporation, a majority of the number of directors prescribed, or if no number is prescribed the number in office

immediately before the meeting begins, shall constitute a quorum for the transaction of business at a meeting of the board of directors.

Section 5. Manner of Acting. Except as otherwise provided in the articles of incorporation, the act of the majority of the directors present at a meeting at which a quorum is present shall be the act of the board of directors.

Section 6. Presumption of Assent. A director of the corporation who is present at a meeting of the board of directors at which action on any corporate matter is taken is deemed to have assented to the action taken unless he objects at the beginning of the meeting (or promptly upon arrival) to holding, or transacting specified business at, the meeting, or he votes against, or abstains from, the action taken.

Section 7. Action Without Meeting. Unless otherwise provided in the articles of incorporation, action required or permitted to be taken at a meeting of the board of directors may be taken without a meeting if the action is taken by all members of the board. The action shall be evidenced by one or more written consents signed by each director before or after such action, describing the action taken, and included in the minutes or filed with the corporate records. Action taken without a meeting is effective when the last director signs the consent, unless the consent specifies a different effective date.

Section 8. Meeting by Communications Device. Unless otherwise provided in the articles of incorporation, the board of directors may permit any or all directors to participate in a regular or special meeting by, or conduct the meeting through the use of, any means of communication by which all directors participating may simultaneously hear each other during the meeting. A director participating in a meeting by this means is deemed to be present in person at the meeting.

ARTICLE 5 - COMMITTEES

Section 1. Election and Powers. Unless otherwise provided by the articles of incorporation, a majority of the board of directors may create one or more committees and appoint two or more directors to serve at the pleasure of the board on each such committee. To the extent specified by the board of directors or in the articles of incorporation, each committee shall have and may exercise the powers of the board in the management of the business and affairs of the corporation, except that no committee shall have authority to do the following:

- (a) Approve or recommend to shareholders action required to be approved by shareholders;
- (b) Fill vacancies on the board of directors or on any of its committees;
- (c) Amend the articles of incorporation;
- (d) Adopt, amend or repeal the bylaws;
- (e) Approve a plan of merger not requiring shareholder approval;

(f) Authorize or approve a distribution, except according to a general formula or method prescribed by the board of directors; or

(g) Authorize or approve the issuance, sale or contract for sale of shares, or determine the designation and relative rights, preferences and limitations of a class or series of shares, except that the board of directors may authorize a committee (or a senior executive officer of the corporation) to do so within limits specifically prescribed by the board of directors.

Section 2. Removal; Vacancies. Any member of a committee may be removed at any time with or without cause, and vacancies in the membership of a committee by means of death, resignation, disqualification or removal shall be filled by a majority of the whole board of directors.

Section 3. Meetings. The provisions of Article 4 governing meetings of the board of directors, action without meeting, notice, waiver of notice and quorum and voting requirements shall apply to the committees of the board and its members.

Section 4. Minutes. Each committee shall keep minutes of its proceedings and shall report thereon to the board of directors at or before the next meeting of the board.

ARTICLE 6 - OFFICERS

Section 1. Titles. The officers of the corporation shall be a chairman of the board, a vice chairman of the board, a president, a secretary and a treasurer and may include a chief executive officer, chief operating officer, executive vice president, one or more additional vice presidents, a controller, one or more assistant secretaries, one or more assistant treasurers, one or more assistant controllers, and such other officers as shall be deemed necessary. The officers shall have the authority and perform the duties as set forth herein or as from time to time may be prescribed by the board of directors or by the chairman of the board or the president (to the extent that either of such officers is authorized by the board of directors to prescribe the authority and duties of officers). Any two or more offices may be held by the same individual.

Section 2. Election; Appointment. The officers of the corporation shall be elected from time to time by the board of directors or appointed from time to time by the chairman of the board or the president (to the extent that either of such officers is authorized by the board to appoint officers).

Section 3. Removal. Any officer may be removed by the board at any time with or without cause whenever in its judgment the best interests of the corporation will be served, but removal shall not itself affect the officer's contract rights, if any, with the corporation. Any officer or assistant officer, if appointed by another officer, may be removed by such officer.

Section 4. Vacancies. Vacancies among the officers may be filled and new offices may be created and filled by the board of directors, or by the chairman of the board or the president (to the extent authorized by the board).

Section 5. Compensation. The compensation of the officers shall be fixed by, or under the direction of, the board of directors.

Section 6. Chairman of the Board of Directors. The chairman of the board of directors shall preside at meetings of the board of directors and shareholders and shall have such other authority and perform such other duties as the board of directors shall designate. The board may designate the chairman as executive chairman.

Section 7. Vice Chairman of the Board of Directors. The vice chairman of the board of directors shall preside at meetings of the board in the absence of the chairman and shall have such other authority and perform such other duties as the board of directors shall designate.

Section 8. Chief Executive Officer, President and Chief Operating Officer. The chief executive officer shall exercise general supervision over the affairs of the corporation and, in the absence of the chairman or vice chairman, shall preside at meetings of the board of directors (if he or she is a director) and shareholders. The chief executive officer shall have such other authority and perform such other duties as the board of directors shall designate. The president shall report to the chief executive officer and shall have the power and authority generally conferred upon the president of a corporation, including the power to hire, appoint and discharge employees and agents of the corporation and sign and execute all authorized notes, bonds, contracts and other obligations in the name of the corporation. In the absence or disability of the chief executive officer, the president shall temporarily act as the chief executive officer of the corporation until the board of directors determines otherwise. The chief operating officer shall report to the chief executive officer or, if so directed by the chief executive officer, to the president and shall have general and active management of the operations of the corporation to the extent directed by the chief executive officer or the president, as the case may be, and shall be responsible for carrying out orders and directions of the chief executive officer and the president. The president and the chief operating officer shall have such other powers and perform such other duties as the board of directors shall designate or as may be provided by applicable law or elsewhere in these bylaws.

Section 9. Vice Presidents. The executive vice president, if such officer is elected or appointed, shall exercise the powers of the president during that officer's absence or inability to act. In default of both the president and the executive vice president, any other vice president may exercise the powers of the president. Any action taken by a vice president in the performance of the duties of the president shall be presumptive evidence of the absence or inability to act of the president at the time the action was taken. The vice presidents shall have such other powers and perform such other duties as may be assigned by the board of directors or by the chairman of the board or the president (to the extent authorized by the board of directors to prescribe the authority and duties of other officers).

Section 10. Secretary. The secretary shall keep accurate records of the acts and proceedings of all meetings of shareholders and of the board of directors and shall give all notices required by law and by these bylaws. The secretary shall have general charge of the corporate books and records and shall have the responsibility and authority to maintain and authenticate such books and records. The secretary shall have general charge of the corporate seal and shall affix the corporate seal to any lawfully executed instrument requiring it. The secretary shall have general charge of the stock transfer books of the corporation and shall keep at the principal office of the corporation a record of shareholders, showing the name and address of each shareholder and the number and class of the shares held by each. The secretary shall

sign such instruments as may require the signature of the secretary, and in general shall perform the duties incident to the office of secretary and such other duties as may be assigned from time to time by the board of directors or the chairman of the board or the president (to the extent authorized by the board of directors to prescribe the authority and duties of other officers).

Section 11. Assistant Secretaries. Each assistant secretary, if such officer is elected, shall have such powers and perform such duties as may be assigned by the board of directors or the chairman of the board or the president (if authorized by the board of directors to prescribe the authority and duties of other officers), and the assistant secretaries shall exercise the powers of the secretary during that officer's absence or inability to act.

Section 12. Treasurer. The treasurer shall have custody of all funds and securities belonging to the corporation and shall receive, deposit or disburse the same under the direction of the board of directors. The treasurer shall keep full and accurate accounts of the finances of the corporation, which may be consolidated or combined statements of the corporation and one or more of its subsidiaries as appropriate, that include a balance sheet as of the end of the fiscal year, an income statement for that year, and a statement of cash flows for the year unless that information appears elsewhere in the financial statements. If financial statements are prepared for the corporation on the basis of generally accepted accounting principles, the annual financial statements must also be prepared on that basis. The treasurer shall in general perform all duties incident to the office and such other duties as may be assigned from time to time by the board of directors or the chairman of the board or the president (to the extent authorized by the board of directors to prescribe the authority and duties of other officers).

Section 13. Assistant Treasurers. Each assistant treasurer, if such officer is elected, shall have such powers and perform such duties as may be assigned by the board of directors or the chairman of the board or the president (to the extent authorized by the board of directors to prescribe the authority and duties of other officers), and the assistant treasurers shall exercise the powers of the treasurer during that officer's absence or inability to act.

Section 14. Controller and Assistant Controllers. The controller, if such officer is elected, shall have charge of the accounting affairs of the corporation and shall have such other powers and perform such other duties as the board of directors or the chairman of the board or the president (to the extent authorized by the board of directors to prescribe the authority and duties of other officers) shall designate. Each assistant controller shall have such powers and perform such duties as may be assigned by the board of directors or the chairman of the board or the president (to the extent authorized by the board of directors to prescribe the authority and duties of other officers), and the assistant controllers shall exercise the powers of the controller during that officer's absence or inability to act.

Section 15. Voting Upon Stocks. Unless otherwise ordered by the board of directors, the president shall have full power and authority in behalf of the corporation to attend, act and vote at meetings of the shareholders of any corporation in which this corporation may hold stock, and at such meetings shall possess and may exercise any and all rights and powers incident to the ownership of such stock and which, as the owner, the corporation might have possessed and exercised if present. The board of directors may by resolution from time to time confer such power and authority upon any other person or persons.

ARTICLE 7 - CAPITAL STOCK

Section 1. Certificates. Shares of the capital stock of the corporation may be certificated or uncertificated as provided under Virginia law, and shall be entered in the stock transfer records of the corporation and registered as they are issued.

When shares are represented by certificates, the name and address of the persons to whom shares of capital stock of the corporation are issued, with the number of shares and date of issue, shall be entered on the stock transfer records of the corporation. Certificates for shares of the capital stock of the corporation shall be in such form not inconsistent with the articles of incorporation of the corporation and shall be approved by the board of directors. Each certificate shall be signed (either manually or by facsimile) by (a) the president or any vice president and by the secretary or an assistant secretary or (b) any two officers designated by the board of directors. Each certificate may be sealed with the seal of the corporation or a facsimile thereof.

When shares are not represented by certificates, then within a reasonable time after the issuance or transfer of such shares, the corporation shall send, or cause to be sent, to the shareholder to whom such shares have been issued or transferred a written notice that shall set forth the name of the corporation, that the corporation is organized under the laws of the Commonwealth of Virginia, the name of the shareholder, the number and class or series, if any, of the shares represented, any restrictions on the transfer or registration of such shares imposed by the corporation's articles of incorporation, these bylaws, any agreement among shareholders or any agreement between shareholders and the corporation, and any additional information required by the Virginia Stock Corporation Act to be included on certificates.

Section 2. Transfer of Shares. Transfers of the corporation's shares shall be made and recorded on the stock transfer records of the corporation upon the receipt of proper transfer instructions as prescribed by the board of directors, and, in the case of transfers of shares which are represented by one or more certificates, only upon receipt of such certificate(s) with proper endorsement, from the holder of record or from such holder's duly authorized attorney in fact, who shall furnish proper evidence of authority to transfer to the secretary of the corporation or its designated transfer agent or other agent. In the event a certificate representing shares to be transferred cannot be surrendered because it has been lost, destroyed or mutilated, the transferor shall comply with the requirements imposed by the board of directors as set forth in Section 6 of this Article 7 in lieu of surrendering a properly endorsed certificate. Upon satisfactory completion by the transferor of the requirements set forth in this Section 2, all certificates for the transferred shares shall be cancelled, new certificates representing the transferred shares (or evidence of the transferee's ownership of the transferred shares in uncertificated form) shall be delivered to the transferee, and the transaction shall be recorded on the stock transfer records of the corporation. Except as otherwise provided by law, no transfer of shares shall be valid as against the corporation, its shareholders or creditors, for any purpose, until it shall have been entered in the stock transfer records of the corporation by an entry showing from and to whom transferred.

Section 3. Transfer Agent and Registrar. The board of directors may appoint one or more transfer agents and one or more registrars of transfers and may require all stock certificates to be signed or countersigned by the transfer agent and registered by the registrar of transfers.

Section 4. Regulations. The board of directors may make rules and regulations as it deems expedient concerning the issue, transfer and registration of shares of capital stock of the corporation.

Section 5. Fixing Record Date. For the purpose of determining shareholders entitled to notice of or to vote at any meeting of shareholders, or entitled to receive payment of any dividend, or in order to make a determination of shareholders for any other purpose, the board of directors may fix in advance a date as the record date for the determination of shareholders. The record date shall be not more than seventy (70) days before the meeting or action requiring a determination of shareholders. A determination of shareholders entitled to notice of or to vote at a shareholders' meeting shall be effective for any adjournment of the meeting unless the board of directors fixes a new record date, which it shall do if the meeting is adjourned to a date more than one hundred twenty (120) days after the date fixed for the original meeting. If no record date is fixed for the determination of shareholders, the record date shall be the day the notice of the meeting is mailed or the day the action requiring a determination of shareholders is taken. If no record date is fixed for action without a meeting, the record date for determining shareholders entitled to take action without a meeting shall be the date the first shareholder signs a consent to the action taken.

Section 6. Lost Certificates. The board of directors may direct a new certificate or certificates to be issued in place of any lost or destroyed certificate or certificates previously issued by the corporation if the person or persons who claim the certificate or certificates make an affidavit stating that the certificates of stock have been lost or destroyed. When authorizing the issuance of a new certificate or certificates, the board of directors may, in its discretion and as a condition precedent to the issuance thereof, require the owner of such lost or destroyed certificate or certificates, or the legal representative, to advertise the same in such manner as the board of directors shall require and/or to give the corporation a bond or other form of indemnification, in such sum as the board of directors may direct, to indemnify the corporation against any claim that may be made against the corporation with respect to the certificate or certificates alleged to have been lost or destroyed.

ARTICLE 8 - INDEMNIFICATION OF DIRECTORS AND OFFICERS

Section 1. Indemnification Provisions. Any person who at any time serves or has served as a director or officer of the corporation or of any wholly owned subsidiary of the corporation, or in such capacity at the request of the corporation for any other foreign or domestic corporation, partnership, joint venture, trust or other enterprise, or as a trustee or administrator under any employee benefit plan of the corporation or of any wholly owned subsidiary thereof (a "Claimant"), shall have the right to be indemnified and held harmless by the corporation to the fullest extent from time to time permitted by law against all liabilities and litigation expenses (as hereinafter defined) in the event a claim shall be made or threatened against that person in, or that person is made or threatened to be made a party to, any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, and whether or not brought by or on behalf of the corporation, including all appeals therefrom (a "proceeding"), arising out of such service; provided, that such indemnification shall not be effective with respect to (a) that portion of any liabilities or litigation expenses with respect to which the Claimant is entitled to receive payment under any insurance policy or (b) any liabilities or litigation expenses

incurred on account of any of the Claimant's activities which were at the time taken known or believed by the Claimant to be clearly in conflict with the best interests of the corporation.

Section 2. Definitions. As used in this Article, (a) "liabilities" shall include, without limitation, (1) payments in satisfaction of any judgment, money decree, excise tax, fine or penalty for which Claimant had become liable in any proceeding and (2) payments in settlement of any such proceeding subject, however, to Section 3 of this Article 8; (b) "litigation expenses" shall include, without limitation, (1) reasonable costs and expenses and attorneys' fees and expenses actually incurred by the Claimant in connection with any proceeding and (2) reasonable costs and expenses and attorneys' fees and expenses in connection with the enforcement of rights to the indemnification granted hereby or by applicable law, if such enforcement is successful in whole or in part; and (c) "disinterested directors" shall mean directors who are not party to the proceeding in question.

Section 3. Settlements. The corporation shall not be liable to indemnify the Claimant for any amounts paid in settlement of any proceeding effected without the corporation's written consent. The corporation will not unreasonably withhold its consent to any proposed settlement.

Section 4. Litigation Expense Advances.

(a) Except as provided in subsection (b) below, any litigation expenses shall be advanced to any Claimant within 30 days of receipt by the secretary of the corporation of a demand therefor, together with an undertaking by or on behalf of the Claimant to repay to the corporation such amount unless it is ultimately determined that the Claimant is entitled to be indemnified by the corporation against such expenses. The secretary shall promptly forward notice of the demand and undertaking immediately to all directors of the corporation.

(b) Within 10 days after mailing of notice to the directors pursuant to subsection (a) above, any disinterested director may, if desired, call a meeting of all disinterested directors to review the reasonableness of the expenses so requested. No advance shall be made if a majority of the disinterested directors affirmatively determines that the item of expense is unreasonable in amount; but if the disinterested directors determine that a portion of the expense item is reasonable, the corporation shall advance such portion.

Section 5. Approval of Indemnification Payments. Except as provided in Section 4 of this Article, the board of directors of the corporation shall take all such action as may be necessary and appropriate to authorize the corporation to pay the indemnification required by Section 1 of this Article, including, without limitation, making a good faith evaluation of the manner in which the Claimant acted and of the reasonable amount of indemnity due the Claimant. In taking any such action, any Claimant who is a director of the corporation shall not be entitled to vote on any matter concerning such Claimant's right to indemnification.

Section 6. Suits by Claimant. No Claimant shall be entitled to bring suit against the corporation to enforce his rights under this Article until sixty days after a written claim has been received by the corporation, together with any undertaking to repay as required by Section 4 of this Article. It shall be a defense to any such action that the Claimant's liabilities or litigation expenses were incurred on account of activities described in clause (b) of Section 1, but the

burden of proving this defense shall be on the corporation. Neither the failure of the corporation to determine that indemnification of the Claimant is proper, nor determination by the corporation that indemnification is not due because of application of clause (b) of Section 1 shall be a defense to the action or create a presumption that the Claimant has not met the applicable standard of conduct.

Section 7. Consideration; Personal Representatives and Other Remedies. Any Claimant who during such time as this Article or corresponding provisions of predecessor bylaws is or has been in effect serves or has served in any of the capacities described in Section 1 shall be deemed to be doing so or to have done so in reliance upon, and as consideration for, the right of indemnification provided herein or therein. The right of indemnification provided herein or therein shall inure to the benefit of the legal representatives of any Claimant hereunder, and the right shall not be exclusive of any other rights to which the Claimant or legal representative may be entitled apart from this Article.

Section 8. Scope of Indemnification Rights. The rights granted herein shall not be limited by the provisions of Section 13.1-697 of the Virginia Stock Corporation Act or any successor statute.

ARTICLE 9 - GENERAL PROVISIONS

Section 1. Dividends and other Distributions. The board of directors may from time to time declare and the corporation may pay dividends or make other distributions with respect to its outstanding shares in the manner and upon the terms and conditions provided by law.

Section 2. Seal. The seal of the corporation shall be any form approved from time to time or at any time by the board of directors.

Section 3. Waiver of Notice. Whenever notice is required to be given to a shareholder, director or other person under the provisions of these bylaws, the articles of incorporation or applicable law, a waiver in writing signed by the person or persons entitled to the notice, whether before or after the date and time stated in the notice, and delivered to the corporation shall be equivalent to giving the notice.

Section 4. Checks. All checks, drafts or orders for the payment of money shall be signed by the officer or officers or other individuals that the board of directors may from time to time designate.

Section 5. Fiscal Year. The fiscal year of the corporation shall be fixed by the board of directors.

Section 6. Amendments. These bylaws may be amended or repealed by the board of directors, except to the extent (a) the power to amend or repeal the bylaws is reserved to the shareholders by the articles of incorporation or by law or (b) the shareholders in adopting or amending particular bylaws provide expressly that the board of directors may not amend or repeal that particular bylaw. These bylaws may be amended or repealed by the shareholders even though the bylaws may also be amended or repealed by the board of directors. A bylaw that fixes a greater quorum or voting requirement for the board of directors may be amended or

repealed (a) if originally adopted by the shareholders, only by the shareholders or (b) if originally adopted by the board of directors, either by the shareholders or by the board of directors, provided that if the bylaw being amended or repealed by the board of directors changes the quorum or voting requirement applicable to meetings of the board of directors, the quorum and voting requirements currently in effect must be met. A bylaw adopted or amended by the shareholders that fixes a greater quorum or voting requirement for the board of directors may provide that it may be amended or repealed only by a specified vote of either the shareholders or the board of directors.

Section 7. Shareholders' Agreement. In the event of a conflict between these bylaws and a valid shareholders' agreement, the shareholders' agreement shall control.

**FIRST AMENDMENT
TO
AMENDED AND RESTATED
EMPLOYMENT AGREEMENT**

THIS FIRST AMENDMENT TO AMENDED AND RESTATED EMPLOYMENT AGREEMENT (the “Amendment”), is made and entered into on the 30th day of October, 2012, to be effective as of the 1st day of November, 2012, by and between **OLD DOMINION FREIGHT LINE, INC.** (the “Company”), a corporation organized and existing under the laws of the State of Virginia and having its principal office at Thomasville, North Carolina, and **David S. Congdon** (the “Executive”), an individual residing at High Point, North Carolina.

RECITALS:

The Company and the Executive previously entered into an Amended and Restated Employment Agreement, effective as of June 1, 2008 (the “Amended and Restated Employment Agreement”). The parties now desire to amend certain provisions of the Amended and Restated Employment Agreement.

AGREEMENT

NOW, THEREFORE, in consideration of the mutual covenants and obligations contained in the Amended and Restated Employment Agreement and of other good and valuable consideration, the receipt of which is hereby acknowledged, the Company and the Executive agree as follows:

1. Section 6.3 of the Amended and Restated Employment Agreement is hereby replaced with the following:

“6.3. Incentive Bonus. In addition to the Base Salary provided for in Section 6.1, the Executive shall be entitled to participate in the Company’s executive profit-sharing bonus program (also referred to as the “Performance Incentive Plan”) and receive such bonuses as may be awarded to the Executive from time to time under such program. Any such bonuses shall be payable in the manner specified in such program.”

2. Article 7 of the Amended and Restated Employment Agreement is hereby replaced with the following:

“ARTICLE 7. REIMBURSEMENT OF EXPENSES AND SECRETARIAL ASSISTANCE . The Company recognizes that the Executive will incur, from time to time, expenses for the benefit of the Company and in furtherance of the Company’s business, including, but not limited to, expenses for entertainment, travel and other business expenses consistent with the Company’s past practices. During the Term, the Executive will be reimbursed for his reasonable expenses incurred for the benefit of the Company in accordance with the established policy of the Company as adopted from time to time by the Board. To receive such reimbursement, the Executive must present to the Company an itemized accounting, in such detail as the Company may reasonably request, of such expenditures, and all reimbursements must be made no later than the end of the calendar year following the calendar year in which the expense was incurred. In the event of the termination of the Executive’s employment for any reason, the Company shall reimburse the Executive (or in the event of death, his personal representative) for expenses incurred by the Executive on behalf of the Company prior to the Termination Date to the extent such expenses have not been previously reimbursed by the Company. The Company further agrees to furnish the Executive during the Term with an office and such secretarial assistance as shall be suitable to the character of the Executive’s position with the Company and adequate for the performance of his duties hereunder. The Company further agrees that the Executive may use during the Term the Company’s airplane or airplanes for personal use in accordance with the general policy of the Company as adopted from time to time by the Board. The Company further agrees to provide the Executive during the Term with an automobile for his use. The expenses eligible for reimbursement under this ARTICLE 7 in any calendar year shall not affect any expenses eligible for reimbursement or in-kind benefits to be provided in any other calendar year. The Executive’s rights under this ARTICLE 7 shall not be subject to liquidation or exchange for any other benefit.”

3. Section 10.3 of the Amended and Restated Employment Agreement is hereby replaced with the following:

“10.3. Release. In consideration of the Compensation Continuance payable to the Executive pursuant to this ARTICLE 10, the Executive agrees to complete and execute a General Release and Waiver of Claims (the “Release”), which Release shall be in substantially the form attached hereto as Exhibit A. The completed and executed Release must be delivered to the Company on or before the date that payment is to commence under ARTICLE 10 or the Executive shall forfeit his right to receive the termination compensation. Prior to the Executive’s termination of employment, the Company may modify the Release to conform it to the laws of the local jurisdiction applicable to the Executive so long as such modification does not increase the obligations of the Executive thereunder.

See ARTICLE 11 for special benefits the Executive may be entitled to receive under the Company Welfare Benefit Plans upon the expiration of the Term.”

4. The first sentence of Exhibit A to the Amended and Restated Employment Agreement is hereby replaced with the following (to refer to this Amendment):

“In consideration of the payment by Old Dominion Freight Line, Inc. (the “Company”) of the termination compensation (the “Termination Compensation”) and other benefits payable to me pursuant to that certain Amended and Restated Employment Agreement effective as of June 1, 2008, as amended, to which this Exhibit A is attached (the “Agreement”), I, _____ agree to and do finally and completely release and forever discharge the Company and its present and former parents, subsidiaries and affiliates, and any one or more of their present and former employees, shareholders, officers, directors or agents (the “Releasees”) from any and all liabilities claims, obligations, demands and causes of action of any and every kind or nature whatsoever, in law, equity or otherwise, known or unknown, suspected or unsuspected, disclosed and undisclosed, which I now have, own or hold, or claim to have, own or hold, or which I may have, own or hold, or claim to have, own or hold, against each or any of the Releasees arising from or relating to my employment with the Company and termination of that employment.”

5. This Amendment may be executed simultaneously in one or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

6. Except as otherwise provided in this Amendment, the terms and provisions of the Amended and Restated Employment Agreement shall continue in effect.

IN WITNESS WHEREOF, the parties have executed this Amendment on the day and year first above written.

CERTIFICATION

I, David S. Congdon, certify that:

1. I have reviewed this Annual Report on Form 10-K of Old Dominion Freight Line, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Date: February 28, 2013

President and Chief Executive Officer

CERTIFICATION

I, J. Wes Frye, certify that:

1. I have reviewed this Annual Report on Form 10-K of Old Dominion Freight Line, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Date: February 28, 2013

/s/ J. Wes Frye

Senior Vice President - Finance and Chief
Financial Officer

**CERTIFICATION PURSUANT TO 18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO SECTION 906
OF THE SARBANES-OXLEY ACT OF 2002**

I, David S. Congdon, state and attest that:

- (1) I am the President and Chief Executive Officer of Old Dominion Freight Line, Inc. (the “Issuer”).
- (2) Accompanying this certification is the Issuer’s Annual Report on Form 10-K for the year ended December 31, 2012 (the “Annual Report”), a periodic report filed by the Issuer with the Securities and Exchange Commission pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), which contains financial statements.
- (3) I hereby certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that, to my knowledge:
 - The Annual Report containing the financial statements fully complies with the requirements of Section 13(a) or 15(d) of the Exchange Act, and
 - The information contained in the Annual Report fairly presents, in all material respects, the financial condition and results of operations of the Issuer for the periods presented.
